

CLOUD BOOTCAMP FOR AZURE

Jumpstart your cloud migration with SoftwareOne's Cloud Bootcamp for Azure

Is your organization considering moving workloads to the cloud but feels unprepared to take the next step in your journey? A staggering 95% of organizations report that a lack of cloud skills has negatively impacted their operations, and 55% of IT leaders cite issues caused by insufficient preparation when transitioning to the cloud. As businesses increasingly rely on cloud services, Microsoft Azure stands out as a leading platform for innovation and efficiency.

To help you gain a deeper understanding of Azure services and their potential integration into your environment, SoftwareOne presents the Cloud Bootcamp for Azure workshops. During the workshops we will be looking into your specific business needs and goals to facilitate knowledge transfer between SoftwareOne and your team. Our goal is to empower decision-makers with the insights needed to shape the future design of your Azure environment starting with the Azure Landing Zone for example. We will provide you with foundational knowledge on Azure concepts, core Azure services & solutions and management tools. It will also cover general security, network design & security, governance, privacy, compliance features, as well as Azure cost management.

Empower your team

Accelerate your cloud journey

Deployment plan and methodology

Details

<h1>1</h1> <p>Online or a face-to-face workshop</p>	<h1>2</h1> <p>Broken down into different topics each discussed individually based on your organizations' needs.
