SoftwareOne Cloud Checkup for Azure

Wondering where and how to start improving your Azure environment?

According to Flexera's 2024 State of the Cloud Report, one of the top cloud challenges is a lack of organisational expertise, which is not surprising given the rapid changes that organisations go through on their digital transformation journey. Does your team lack the knowhow or time to stay on top of best practices and understand if your cloud environment has the right configurations set up? Our Cloud Checkup for Azure can uncover missed potential and improvements for your entire Azure environment to enable accelerated business innovation.

Enhance your cloud operations

Evaluate your cloud setup against best practices

Automated and easily repeatable to ensure consistent relevant evaluation to avoid configuration drift.

Practical recommendations to help improve your organisation's cloud operations

What our service looks like

- Kickoff meeting to introduce the checkup process
- SoftwareOne consultants running the assessment
- Final presentation led by a SoftwareOne consultant explaining the checkup report and sharing of the report including assessment data & recommendations

Benefits for your organisation

- Optimised operations and reliability
- Identified inefficiencies resulting in cost efficiency
- Enhanced security and compliance
- Improved operational excellence
- Improved resource management

Why choose SoftwareOne to optimise your Azure environment?

- 2900+ Azure certifications globally
- Solutions partner with all 6 Microsoft competencies
- Local and global services, from AI consulting to cloud and licence optimisation
- 30+ year partnership with Microsoft enabling funding and incentive access
