Copilot Advisory:
Solution**

Accelerate your deployment with Copilot for Microsoft 365

Organisations worldwide are currently grappling with the pressing need to securely increase productivity, reduce friction, and drive impactful business outcomes and with the imminent rise for GenAI, organisations are increasingly turning to innovative solutions like Copilot for M365 to harness its potential.

As organisations explore the integration of Copilot for M365 into their workflows, it's natural to have questions not only about how to effectively implement this solution but also about how to understand its added value, navigate security and compliance risks, and adequately prepare for this transformative journey. At SoftwareOne, we understand how difficult it can be to navigate these complex considerations, which is why we have created a comprehensive Copilot advisory service working collaboratively in partnership through every step of the process, ensuring a seamless integration of Copilot for M365 while addressing all concerns.

Begin with our Copilot for M365 pilot program—a meticulously designed trial empowering you to fully gauge the solution's business value. This initial phase is more than a test; it's your blueprint for success. Experience firsthand how it seamlessly integrates with your operations, offering not just a sneak peek into enhanced end-user enablement and training but also fortifying your organisational security.

Realise a faster time to value with SoftwareOne Copilot Advisory: Solution

Experience a seamless and successful pilot and adoption of Copilot for M365 and leave with:

A Microsoft environment prepared for Copilot that leverages ME3 and ME5 security and compliance capabilities.	A pilot group between 30 and 300 people, enabled for success through effective communications, training, and a vibrant community of Copilot adopters.	An executive report containing user feedback, measures of success against predefined goals and recommendations on next steps.

Pilot and adopt Copilot for M365 with confidence

SoftwareOne Copilot Advisory: Solution is an advisory service that comprises selectable modules intended for organisations who are deploying Copilot for Microsoft 365 licences.

Clients can select one or more modules to build their personalised advisory:

Module 1 Copilot technical enablement	Module 2 Security configuration & deployment	Module 3 Information protection & governance	Module 4 Adoption & change management strategy	Module 5 Use case scenario definition
Investigation of your Microsoft tenant settings, implement technical prerequisites, enable up to 300 users for Copilot and install Copilot Dashboard for tracking usage.	Review, implement, deploy and test new configurations for identity/access and endpoint protection like conditional access policies and Microsoft Defender.	Assessment and configuration of OneDrive, SharePoint, and Data Loss Prevention settings, and introduction to Microsoft Purview for governance.	Define and execute communication, training, and user feedback strategies, with management recommendations.	Identify, prioritise and document up to five use case scenarios for Copilot for M365.
Enhanced security with E5 add-on.	Extend the capabilities of your security module with the E5 feature set with this add-on service to the above Security module.			

Choose SoftwareOne as your trusted partner for a successful Workplace AI transformation

By leveraging Microsoft's recommended best practices and the expertise of SoftwareOne's consultants, organisations can confidently embark on a pilot phase for Copilot for M365. Our consultants will guide you through the process, including the establishment of a Copilot Centre of Excellence, ensuring that you end the pilot with a clear roadmap to scale your Copilot for M365 deployment. With our depth of expertise in Data and AI and our participation in the Copilot for M365 early adopter's programme means we've tried and tested Copilot for M365 and enabled many clients already to envision and discover their readiness for Copilot.

As a result, we have become the trusted partner for organisations seeing support in their transformative journey. Choose SoftwareOne and accelerate your transformation with confidence.
