

PREPARE YOUR ORGANIZATION FOR BUSINESS SUCCESS

Support, Optimize and Manage your Microsoft Modern Workplace Investment and Enhance Your Overall Productivity with Digital Workplace Essentials

As new technologies evolve and shape the way we work, more and more power users are helping drive digital transformation by adding new tools and platforms to their working routine.

Modern Workplace solutions from Microsoft allow your organization to realize a secure Future [Workplace](#), and [Workplace and](#) help you to go from A to Z in on your digitalization journey by enabling employees to work proficiently in their new cloud environment using always available tools and platforms.

Of course, it's not just getting started, but making sure you have the right support model in place.

SoftwareONE provides your business with peace of mind through access to our support available 24x7 across the globe, with access to Microsoft Premier Support for when you have those really tricky issues you need our support with.

Delivered through the PyraCloud platform, managing your Microsoft investment has never been easier.

SoftwareONE's Digital Workplace Essentials helps you embrace the benefits of Microsoft Modern Workplace solutions with everything we think you need in your essential 'kit bag'.

Great value and simple to understand, Digital Workplace Essentials provides Microsoft Modern Workplace technologies along with Add-Ons such as SSM and Adoption to help flexibly build your perfect solution that meets your business needs

With IT responsibilities changing, budget priorities shifting and focus on cost, user experience security, governance and compliance increasing, IT workers have to find a way to deliver results more effectively without tying a significant part of their resources and budget to it. This creates a business need that requires a special skill and services set to help your organization innovate and prepare for the future:

- › **Improve Business Productivity:** Harness new technologies and workflows to empower and inspire people to do their best work.
- › **Cost Optimization:** Let digitalization help you to increase budget transparency and uncover potential cost-cutting opportunities.

- › **Reduce Risk:** Place governance, compliance, data security and IT authorities at the center of your Future Workplace activities.
- › **Increase Availability:** Empower your employees to work securely and confidently from anywhere at any time with a stable support foundation.
- › **Reduce Complexity:** Streamline your support overheads and ensure your overall satisfaction with direct contacts through our Premier Support with Microsoft

Digital Workplace Essentials is designed to make your organization more agile.

Removing the need for costly on-premises technologies, it extends your organization's capabilities to communicate, collaborate and share information outside of traditional work silos.

No matter where you are on your Future Workplace journey, our Digital Workplace Essentials service enables you to embrace the benefits of Microsoft Modern Workplace solutions and to reduce the user and operational complexity.

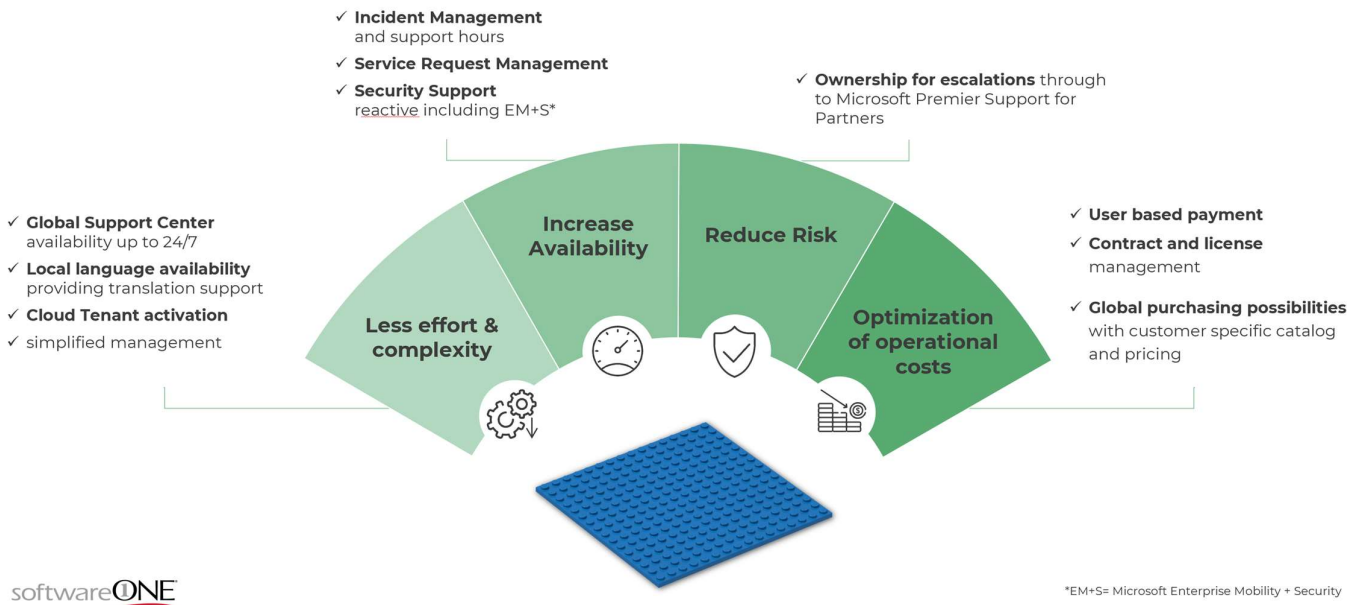

We do this by providing you with the essential 'kit bag' along with Add-Ons to choose from based on your individual business needs and desired business outcomes.

Our Future Workplace professionals support you in bringing your planning to life or guiding you on your next steps.

When you purchase Digital Workplace Essentials along with our Add-Ons such as Service Success Manager or Adoption, we provide solutions to help you meet your IT and business requirements.

Enabling Microsoft 365 and EM+S security configurations based on recommended practices will further help you to prevent and mitigate security risks.

Let us help you to remove the need for costly on-premises technologies and extend your organization's capabilities to communicate, collaborate and share information outside of traditional working silos.

Take complexity out of your work day by increasing your workers' productivity and paving the way for better collaboration. Get in touch to learn more!
