

LANDING ZONE FOR AZURE

# Your gateway to effortless cloud transformation and innovation

Considering a move to the cloud? SoftwareOne's Landing Zone for Azure is your secure, scalable, and cost-optimized foundation for cloud adoption. With ready-to-deploy environments built on best practices, you can confidently scale operations while maintaining governance and compliance.

## Our service modules

### Design

Collaborative workshops to create a high-level landing zone design aligned with Microsoft's guidelines.

### Deployment

Prepare, configure and set up a solid deployment pipeline connected to your Azure environment, using Terraform.

### Testing and enabling your team

Validate infrastructure functionality and empower your team with the information and tools needed to continue operations.

## SoftwareOne's Landing Zone for Azure offers you

**Standardization and utilizing best practices:** Ensures best practices and standardized configurations, maintaining consistency and reducing misconfigurations.

**Security and compliance:** Provides a secure foundation with built-in security measures and governance structures, meeting compliance requirements and protecting data.

**Scalability and flexibility:** Features a modular and scalable architecture, allowing easy expansion and adaptation to your changing business needs.

**Cost efficiency:** Follows a structured approach for efficient resource allocation and management, leveraging Azure's cost management tools and best practices.

**Launch pad for innovation:** Enables you to stay ahead in the digital landscape and accelerate your organizations' AI, machine learning, and analytics opportunities.

# Why should your organization design and deploy your Azure Landing Zone with SoftwareOne?

- Azure Expert MSP since 2017
- Contributor to the Microsoft Intelligent Security Association (MISA)
- A total of 2900+ Azure certifications globally
- Azure cloud journey partner: Migrate, modernize and optimize in the cloud
- Solutions partner with all 6 Microsoft competencies
- Local and global services, from AI consulting to cloud and license optimization
- 30+ year partnership with Microsoft that can help you leverage funding to achieve your goals more cost effectively

To make our move to the cloud, SoftwareOne advised us to choose a Landing Zone for Azure. This provides us with a framework to make the transition to the cloud run smoothly and in a controlled manner. SoftwareOne understands its customer needs and has knowledge of both the market and non-profit sectors. They can advise us in various areas. The collaboration is flexible, transparent, and professional, and that is exactly what we need. In short, SoftwareOne is an important strategic partner for us.

Strategic Advisor IT, Gro-up

SoftwareOne's strategic and solution implementation expertise has been simply outstanding across the board, and they never fail to deliver. They streamline our licensing, data management and cyber security making everything simpler and leveraging their strong Microsoft relationship to our advantage, especially with the Azure move. Their deep understanding of Microsoft products and direct line to support have been beyond Invaluable.

Keith Bui, Infrastructure & Service Desk Manager, Grill'd Healthy Burgers

Start your Azure migration by deploying SoftwareOne's Landing Zone for Azure. Contact our experts today and ensure your organization is set up for its digital transformation.
