SAP ECC to S/4HANA Conversion Services

Convert and Migrate your SAP to the Hyperscaler Cloud

CONVERT YOUR EXISTING SAP ECC TO S/4HANA ON HYPERSCALER CLOUD

Leverage the Hyperscaler Cloud to modernize your SAP ERP while enhancing performance and security, optimizing running costs, and gaining access to simplified business processes

Did you know that 72 % of SAP customers are planning to deploy S/4HANA in the Cloud?

Modernizing your Enterprise Resource Planning (ERP) business process platform through SAP S/4HANA, enables organizations to keep up with ever increasing customer requirements and competitive business environments. With SoftwareONE SAP ECC to S/4HANA conversion services, we will help you on your first step towards a holistic business transformation on the

Hyperscaler cloud.

Our SoftwareONE SAP Technology system focuses on providing you with the best architected technology platform with aim to maximize security, performance, and resilience while leveraging the best of what the world of cloud infrastructure has to offer. A well run SAP Technology platform is your first step on your business transformation journey.

> Increasingly, many organizations have applications that are computing infrastructure in the cloud - in fact, it is predicted that 80 % of customers will no longer use traditional data centers by 2025. That being said, it's important to start leveraging the Hyperscaler cloud platform to get ahead of your competitors. With SoftwareONE's expertise, we will help you seamlessly migrate to S/4HANA on the Hyperscaler cloud so that you can focus on new market opportunities and associated business models.

In today's world access to qualified technology resources is becoming increasingly difficult. Along with the new opportunities that Hyperscaler cloud platforms offer comes a gap in the existing talent pool which has traditionally focused on on-premise hosting environments for SAP. To efficiently architect, migrate, and run SAP in the Cloud customers require a newly skilled team

that understands both SAP technologies and the Hyperscaler platform. SoftwareONE's team of dual certified (SAP and Hyperscaler platform) and highly experienced consultants provide end-to-end S/4HANA implementation services, which encompass all aspects of project design, build, test, data migration, and cutover for the SAP technology layer on public cloud.

To help you quickly adopt and leverage public cloud technologies, here are a few capabilities out of the many that SoftwareONE delivers:

› Assess and plan your migration strategy with SAP Transformation Navigator.

› Provide SAP industry best practices for data migration and conversion.

› Convert your ECC or legacy ERP to S/4HANA with S/4HANA Migration Cockpit Software

› Provide detailed assessments regarding your platform, workload migration plan, and the migration's predicted cost and benefit.

› Integrate with 3rd party applications through expert help.

With SAP customers increasingly planning to deploy S/4HANA in the cloud, it is time to consider if your business would benefit from this modernized ERP solution on the public cloud. While S/4HANA on the Hyperscaler cloud allows your organizations to work seamlessly and efficiently, it's not easy to deploy such a complex solution without an experienced partner such as SoftwareONE's SAP Technology Services.

When you sign up for SoftwareONE's SAP ECC to S/4HANA Conversion services, you will soon be able to benefit from:

Optimized Productivity

Drive higher productivity with simplified processes, continuous business process innovation, and improved user interface technologies.

Optimized Revenue

Enable new business models and revenue streams by processing more data and accessing emerging cloud technologies with the S/4HANA implementation.

Optimized Costs

Reduce overall infrastructure costs by leveraging the Hyperscaler cloud and all of its economies of scale and consumption flexibility.

Increased Efficiency

Simplify the management and administration of the IT landscape by centralizing network resources and hardware.

Thankfully, with SoftwareONE's expertise and ongoing support, you can convert your existing SAP ECC to S/4HANA on the Hyperscaler platform in a single step.
