

**SoftwareOne  
Windows 365  
Cloud PC Proof  
of Concept**

# Unleash your productivity with Windows 365 Cloud PC

Get ready to revolutionise your business operations and empower your workforce like never before. Imagine having your personalised Windows desktop accessible from anywhere, on any device, at any time.

Windows 365 is your securely streamed PC in the cloud, with personalised Windows experiences for your users, including your desktop, apps, settings, and content, at any time to any device. Easy to manage, Admins can assign and configure Cloud PCs using familiar tools like Microsoft Endpoint Manager.

## Key benefits of Windows 365 Cloud PC

- **Enhanced flexibility** with predictable costs per user
- **Unmatched security** with conditional access and user multi-factor authentication
- **Simplified administration** in Microsoft Endpoint Manager for enterprise edition
- **Seamless scalability** by tailoring your computing resources to match your needs

SoftwareOne Windows 365 Cloud PC Proof of Concept (PoC) allows organisations to explore the incredible capabilities of Windows 365 Cloud PC risk free. During the 7 or 10-day PoC, you'll have access to a fully functioning Windows 365 Cloud PC, enabling you to experience its seamless operation, try out your favourite applications and witness the transformative potential it holds for your users.

## Our approach

### Part 1: Collect

Collect information regarding your current infrastructure, licencing, users and usage.

### Part 2: Build

Conduct deployment workshops with the IT team to collect service requirements as well as identify security policies to meet security and regulatory requirements

### Part 3: Deploy

Implement and test the solution including three Windows 365 cloud machine provisioning and assistance with vNET setup if needed. For the advanced implementation additionally including up to 1 custom image and custom security policy.

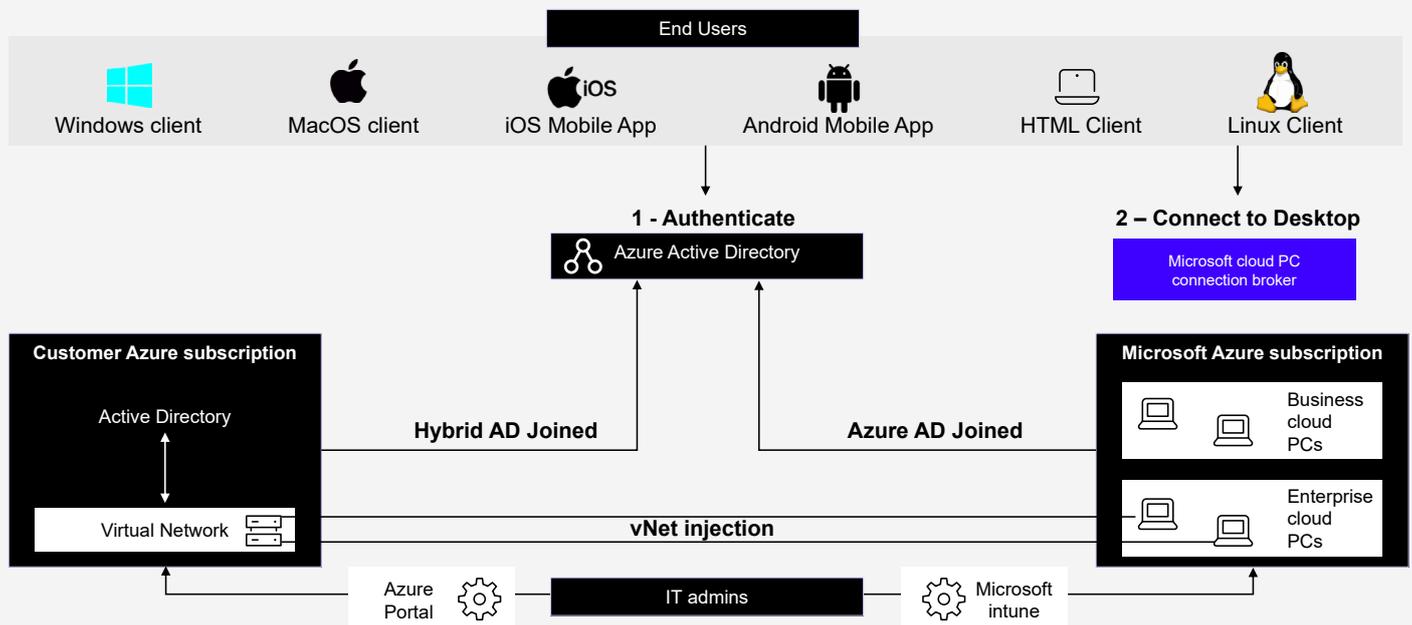

### Part 4: Review

Pilot summary session and recommended next steps.

## Deliverables

- Windows 365 solution recognised and tested
- Customer readiness for global rollout (ADV Version)
- Pilot Summary document including recommended next steps and actions before production enrolment.
