# OUR RECENT PROJECTS

## TRULY CONNECTED ENTERPRISES

Discover some of our transformative case studies showcasing truly connected enterprises. Explore our recent projects that exemplify seamless integration, empowering organizations to optimize operations and drive success.

**Client Name: Osho Chemicals**

**Industry:** Manufacturing

**Solution:** System Integration Solution for HR and Payroll management , featuring Biometrics

### **Empowering Workforce Efficiency: Dynamics 365 Payroll and HRIS**

Leveraging advanced system integration solutions and biometric authentication technology, we seamlessly integrated Osho Chemicals' systems, delivering a comprehensive HR and Payroll Management solution. The implementation included centralized databases, automated payroll, self-service portals, and biometric attendance, resulting in enhanced accuracy, efficiency, and employee satisfaction. By leveraging scalable and future-ready technology, Osho Chemicals can optimize workforce management, streamline HR processes, and drive further growth.

## **Client Name: Greenspoon**

**Industry:** eCommerce

**Solution:** Dynamics 365 Business Central for Finance & Operations integrated with Power BI Solution for Data Visualization and Analysis

The logo for Greenspoon, featuring the word "greenspoon" in a lowercase, green, sans-serif font.

### **Food Shopping Made Sustainable and Efficient: How Green Spoon Is Leading the Way**

Greenspoon, Africa's first B Corp Certified online retail store, partnered with Software Dynamics to revolutionize sustainable food shopping. By implementing Microsoft Dynamics 365 Business Central and Power BI, Greenspoon achieved real-time visibility into inventory levels, optimized stock management, automated purchase orders, and gained actionable insights for sales and revenue. The results were remarkable, with a reduction in inventory holding costs and an increase in sales revenue. Through this transformative journey, Greenspoon exemplifies the power of technology and sustainability in driving positive change.

## **Client Name: VSF-G**

**Industry:** NGO

**Solution:** Dynamics 365 Business Central for Finance, Operations and Project Management

**Vétérinaires  
Sans Frontières  
Germany**

### **VSF-G enhances accountability and transparency**

VSF Germany's implementation of Dynamics 365 Business Central Solution has not only streamlined operations and improved efficiency but has also significantly enhanced accountability and transparency. By digitizing processes and centralizing data, VSF Germany now has better visibility into its operations across all countries of operation. This increased transparency enables the organization to track and monitor resources, finances, and project outcomes more effectively. Stakeholders, including donors and beneficiaries, can have confidence in VSF Germany's commitment to accountability, as the solution ensures accurate data management, reliable reporting, and adherence to industry standards. Through the enhanced accountability and transparency achieved with Dynamics 365, VSF Germany continues to build trust and make a meaningful impact in the communities it serves.

## Client Name: Lesphine Investments LTD

Industry: Retail and Distribution

Solution: Dynamics 365 Business Central and  
SalesLife Integration

### Streamlining Operations: System Integration enhancing End-to-End Distribution Management

By seamlessly integrating Dynamics 365 Business Central and SalesLife, Lesphine Investments LTD streamlined their distribution management processes from start to finish. With Dynamics 365 Business Central handling finance and operations and SalesLife managing retail management and point of sale (POS), the integration resulted in an efficient and cohesive distribution management platform. The end-to-end solution empowered the company to optimize inventory management, streamline order processing, enhance customer service, and gain real-time insights for informed decision-making. The successful implementation and integration of these powerful platforms proved instrumental in propelling the company towards operational excellence and ensuring seamless distribution management.
