

Cloud Transformation for Enterprises: Strategy + Implementation

OPTIONAL SERVICES

Optional Service #01: Knowledge Transfer

Enable your team to maintain and scale the solution independently.

To empower your technical and business stakeholders, we conduct comprehensive workshops to explain how the solution operates and outline maintenance best practices.

Scope of work:

- Hands-on training for stakeholders
- Documentation of operational procedures
- Knowledge sharing on scalability and optimization

Results:

- Knowledge transfer workshops
- Maintenance guides for continued operations

Cost & Time:

- \$8,000 net
- 2-4 weeks, depending on scope

Cloud Transformation for Enterprises: Strategy + Implementation

Optional Service #02: Cloud Managed Services 24/7

Ensure the stability, security, and efficiency of your cloud environment with our ongoing support.

After the knowledge transfer, our experts remain available to assist your team with maintenance, optimization, and future development.

We provide:

- SLA-backed support for reliability and performance
- Proactive monitoring to detect and resolve issues early
- Microsoft 365 (O365) management for seamless collaboration
- Cost management to optimize cloud spending
- Security oversight to protect your infrastructure and data
- Landing Zone management to maintain a scalable and compliant cloud foundation

Cost & Time:

- Based on custom support requirements
