- Demonstrate the application of Copilot to sales team functions

### REVIEW

- Workshop objectives
- Impact evaluation
- License costs
- Next steps

# NANO WORKSHOP: BOOSTING SALES PERFORMANCE WITH MICROSOFT COPILOT

## WHY A "NANO" WORKSHOP FOR COPILOT?

Our Nano workshops are time-efficient and laser-targeted, giving participants minor bragging rights on a topic in just few hours.

---

Attendees will learn to quickly and simply use AI to bring value to the sales team - and be ready to implement those solutions within their organization.

---

Unlike traditional workshops that take days and are difficult to schedule with a team, our Nano workshops are time-efficient and laser-targeted, giving you immediate traction on a topic in just a few hours.

---

These workshops favor practice over theory, arming you with immediate, actionable techniques. Use them responsibly.

We use the term "Nano" for two main reasons:

- 1) The workshops are very short.
- 2) "Nano" sounds cool and techy.
