Application Modernization With Solidify.

Application Modernization 2-Week Engagement

You bring the solution; we help you modernize it.
Solidify has been a leading partner in DevOps and Azure for many years helping customers Modernize their application.

WHAT WE OFFER

Solidify believes in modernization guidance, helping customers to plan their modernization based on the solution maturity and scope.

Solidify offers a 2-week engagement where you bring the solution, and we bring our experience needed to modernize your solution based on the correct Azure Solution Architecture.

In our 2-week engagement we focus on a single solution/team and make sure that you have; not only the correct solution architecture but also the competence and know how needed to make your application modernizations a success.

Solidify helps you to make choices in the wide range of technologies to ensure you build a manageable, secure, performant and cost-conscious solution.

See what customers are saying:

" It cannot be emphasized enough how impressed we were with the help we got and how we benefitted from your extensive experience and insight throughout the two weeks. "

–Kristinn Stefánsson, Enterprise Architect,Arion Bank Iceland

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
