

# Microsoft Foundry AI Center of Excellence (COE)

Purpose-built teams. Led by experts. Accelerated delivery.

## Where are you on the AI journey?

With our **flexible** and **modular** approach, **you can start with what you need**. Each phase builds on the last but can be tailored to your organization's maturity and goals.

### Why an AI Architecture Design Session (AI ADS)?

As an organization with established foundational business systems looking to integrate AI strategically, you're positioned at a critical growth opportunity.

- Develop **comprehensive AI strategy** and **governance** frameworks
- Build AI capabilities through a **production-scale** deployment
- Drive measurable **business value**
- Create an AI Center of Excellence (COE) for your **organizational scale**

### Why invest in an ADS and build out your AI COE?

- **Derisk** by focusing on AI COE & Postproduction Operations
- Eliminate shadow AI implementations
- Help engineering teams to **productionize** AI solutions
- Help introduce **domain governance** over AI solutions

Solliance helps you focus on what's important such as implementing frameworks that **deliver business value, enterprise-level scaling** and cost optimization, as well as **accelerating your AI productivity**.

Ready to implement AI in your organization?

Let's connect and walk this path together!
