Whats a live event?

Microsoft Teams live events are an extension of meetings, allowing you to schedule and produce online events for large audiences.

Capacity:
10K
attendees

Proposed Service

Administer and manage a "Live Event" through Microsoft Team, in order to deliver a homogeneous and continuous transmission to attendees.

Requirements

- An Orbia account for streaming.
- Live Event Programming.
- Storyboard of the event.
- Script or information material to answer frequently asked questions.
- Orbia's graphic identity for object design.

Service Specification

- 2 planning sessions (pre-event).
- 1 demo sessions (pre-event).
- Development of visual content for transmission (1 visual transition / bullets / background / background music).
- Creation of screens for speakers.
- Validation of access to account and live events.
- Transmission of content during the proposed session.
- Delivery of status report after event.
