Extreme flexibility and hybrid work defines the post-pandemic workplace

This new era of hybrid work is not as simple as replacing the old reality of the workplace with the new reality of remote work.

Hybrid Meetings builds on the new wave of digital transformation and the power of the nine, and drives new ways of working and being productive, coordinating, collaborating and building a modern workplace that is as flexible and adaptable as possible.

To be successful, organizations must focus on 3 things:

- ✓ Implementing the right policies.
- ✓ Reconfiguring physical spaces .
- ✓ Use technology.

This workshop is designed to showcase hybrid meetings through immersive experiences:

Assess

Gather information on the current environment, meeting spaces and practices.

Build the Plan

Create the strategy and roadmap for the implementation of Microsoft Teams Rooms and hybrid meetings.

Art of the Possible

Showcasing Microsoft Teams rooms and hybrid meeting experiences.

Results of the workshop

An assessment of your current meeting, meeting space and meeting room capacities.

The Art of the possible immersive experience for showcasing Teams rooms and hybrid meetings

Pointers on how to move to Microsoft Teams blended and hybrid meetings across your organization.

Customized report with recommendations to ensure your organization can meet smoothly and share information securely.

Overcast accompanies you in the adoption and use of Hybrid meetings and Rooms:

- ✓ Training in the adoption of new technologies.
- ✓ Technical support service.
- ✓ Promotion of correct use with collaborators.
