

The work-from-anywhere world creates new opportunities to provide value-added managed services to a hybrid workplace.

Microsoft Teams Rooms is a modern **meeting space solution** that brings together the digital workspace of Microsoft Teams with dedicated **first- or third-party audio and video devices**, certified by Microsoft. Thoughtfully designed, Teams Rooms delivers **meeting experiences** with all participants in mind, not just those in the room.

BENEFITS

Foster inclusive, collaborative meetings, bridging the gap between workspaces, so everyone has a place at the same virtual table, no matter where they join from.

Deliver consistent and intuitive Microsoft Teams experiences that allow people to easily schedule, join, and participate in meetings quickly.

Turn any space into an inclusive and easy-to-use meeting space with a wide selection of devices to flexibly scale to fit every need and space.

Keep devices secured, reliable, and up to date through rich management capabilities.
