

It protects the organization and allows employees to work on their own terms. They can work anywhere, anytime and work as they would in the office, improving their productivity.

## Workshop highlights

Focus on key priorities, initiatives and influences on your end-user computing and hybrid work strategy.

Work together to demonstrate cloud PC provisioning and management with Windows 365 in a production environment.

Learn about endpoint with end-user computing strategies; Windows 11 and 365 to drive modernization for your customers

Plan the following steps on how we can work together.

**Why you should attend the NexGen Windows workshop**, it will help you land the value proposition of Microsoft's cloud solutions for end-user computing, with your customers' business decision makers, these solutions include:

- Windows 365
- Azure Virtual Desktop
- Windows 11
- Microsoft Endpoint Manager

### You can:

**Understand** a customer's hybrid work scenarios and the end user's computing goals and objectives.

**Obtain** information on a client's device landscape for both physical and virtual endpoints

**Introducing** Windows 365, Azure Virtual Desktop and Microsoft Manager solutions that deliver a secure desktop experience from virtually anywhere.

**Show** provisioning and managing PC in the cloud with Windows 365 with Microsoft Endpoint Manager.

Overcast supports you in the adoption and use of NexGen Windows:

- ✓ Training in the adoption of new technologies.
- ✓ Technical support service.
- ✓ Promotion of correct use with collaborators.

## Better understand when and how to leverage cloud PCs with Windows 365
