Problem-solving Solution

Problem-solving Solution from Solvedio helps you automatically manage production, technical, or managerial issues using the newest methods and processes. Record issues from any device immediately upon finding them and let Solvedio identify the most suitable solver, record the issue, ensure the fastest possible solution process, and prevent the issue from recurring.

Manage the Entire Problem-solving Process, Find and Solve the Root Cause with One Click

You can record problems easily and quickly

You no longer have to record problems manually in Excel spreadsheets. With Solvedio, you can record them quickly and easily from any device and promptly start the solution process.

- ✓ Take a picture of the problem directly from your mobile and edit the image in the app.
- ✓ Define problem attributes such as problem ID, problem description, or problem location, and attach photos and drawings.
- ✓ Select solvers from the automatically suggested team and let them work on the solution.

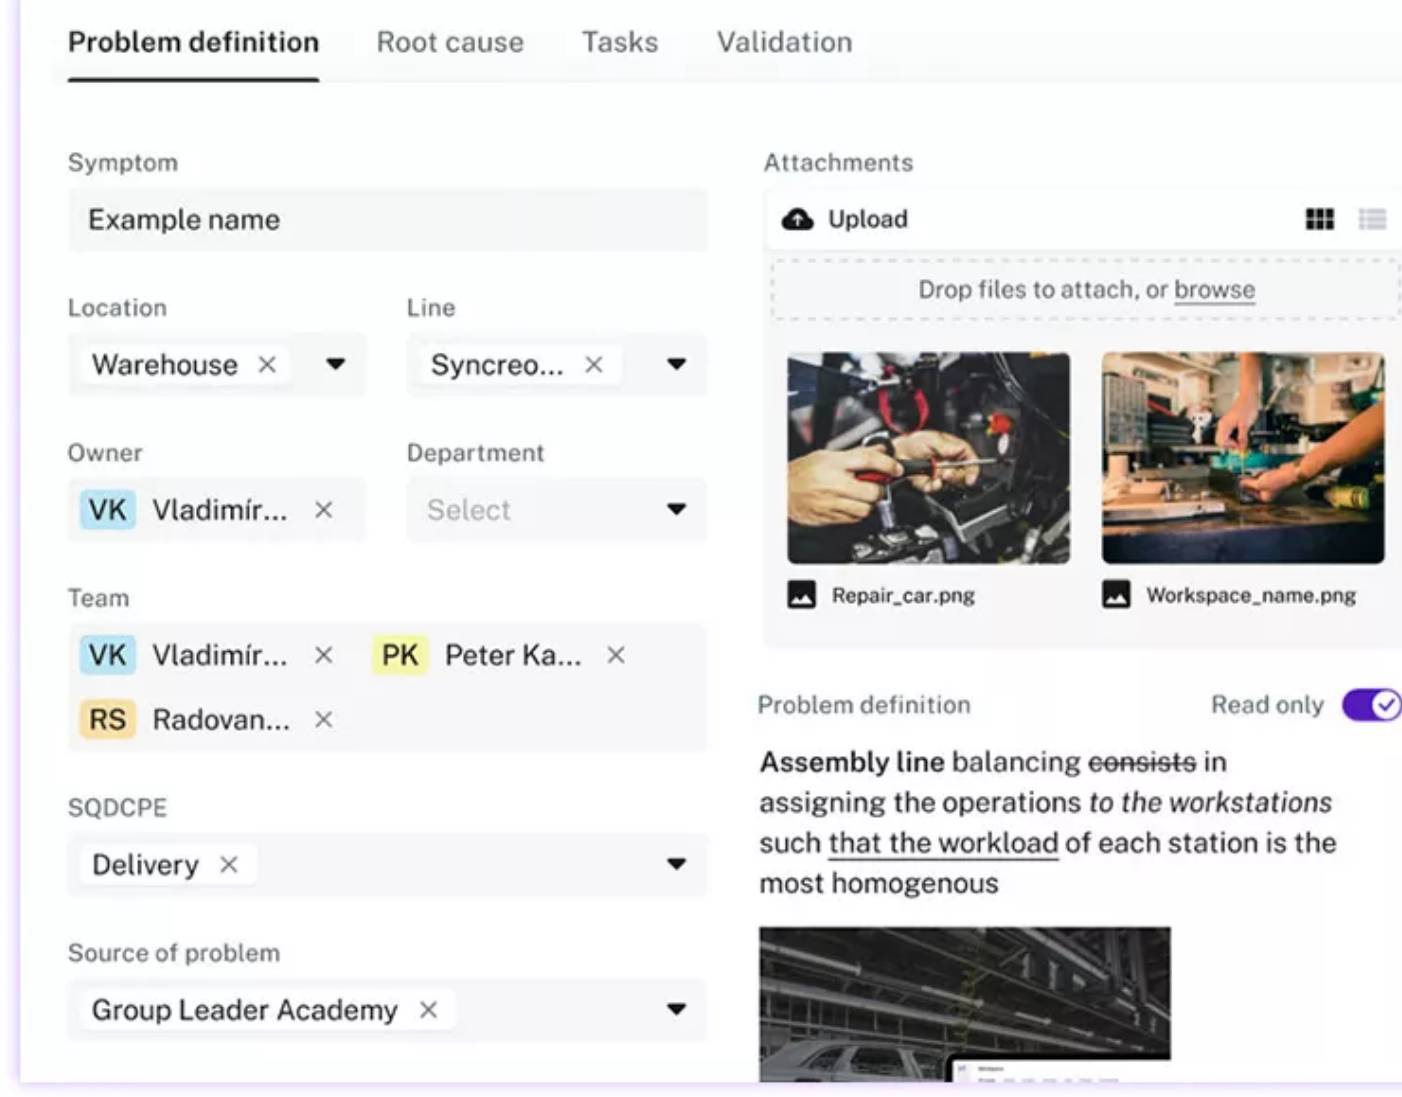

Table title	ID	Name	Status	My role	My tasks
01-AA-SLV-130	Company name	In progress	Team member	0	
01-AA-SLV-130	Company name	New	Team member	3	
01-AA-SLV-130	Company name	Deleted	Team member	0	
01-AA-SLV-130	Company name	Solved	Team member	3	
01-AA-SLV-130	Company name	Closed	Team member	0	
01-AA-SLV-130	Company name	Draft	Team member	3	
01-AA-SLV-130	Company name	In progress	Team member	0	
01-AA-SLV-130	Company name	New	Team member	3	

You can track the issues important to you

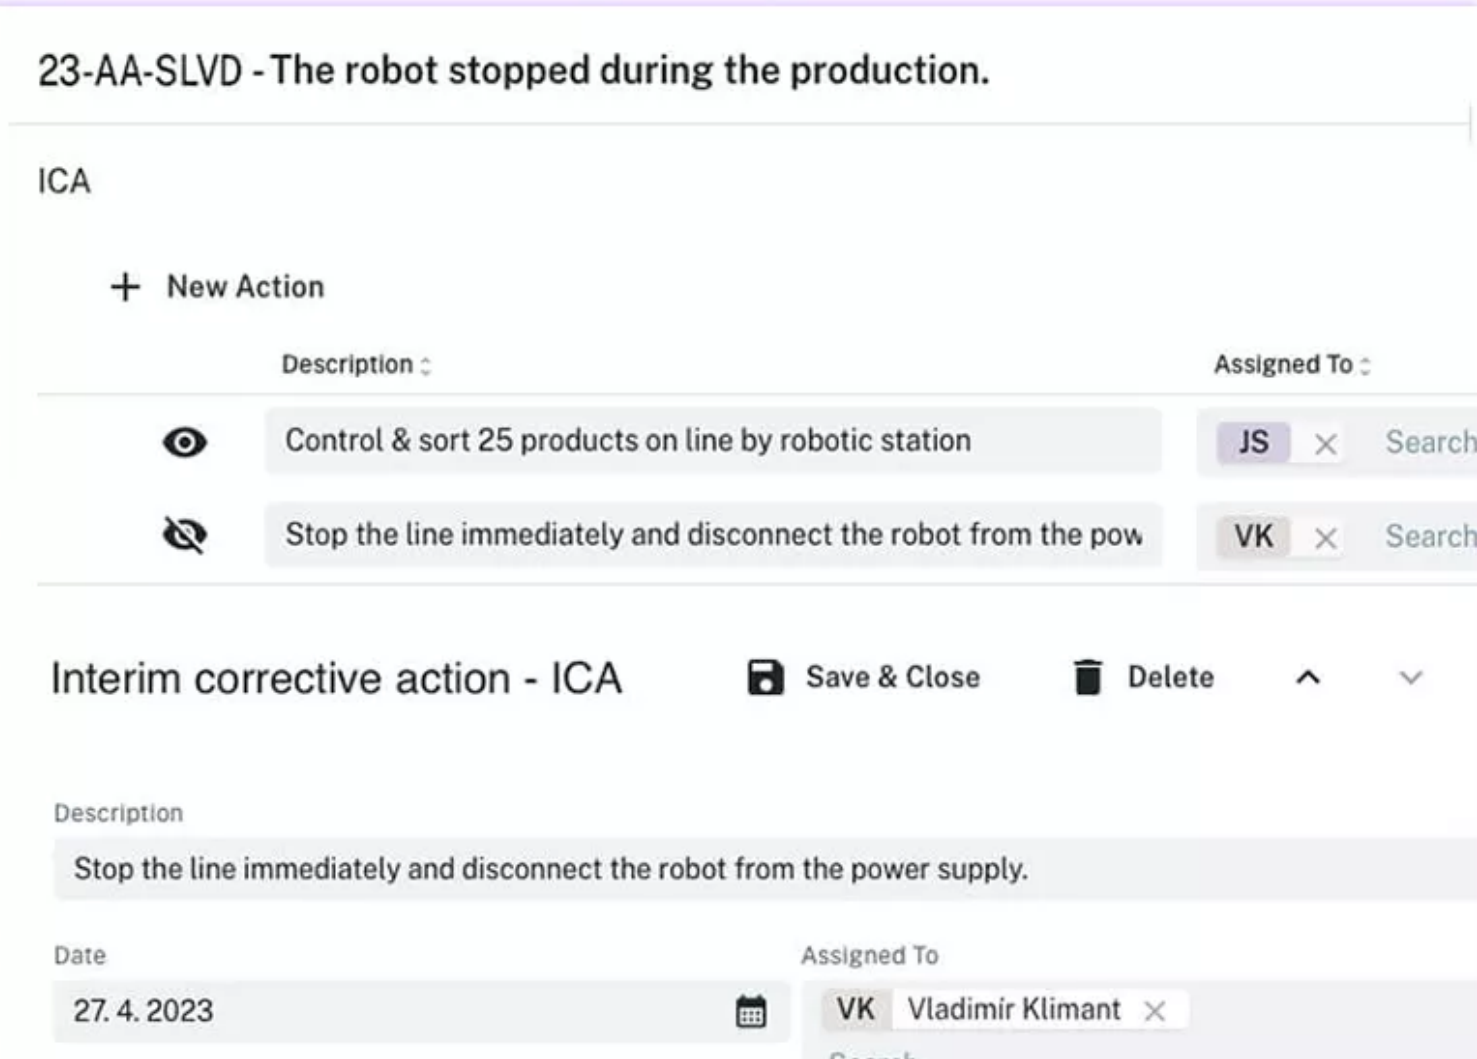

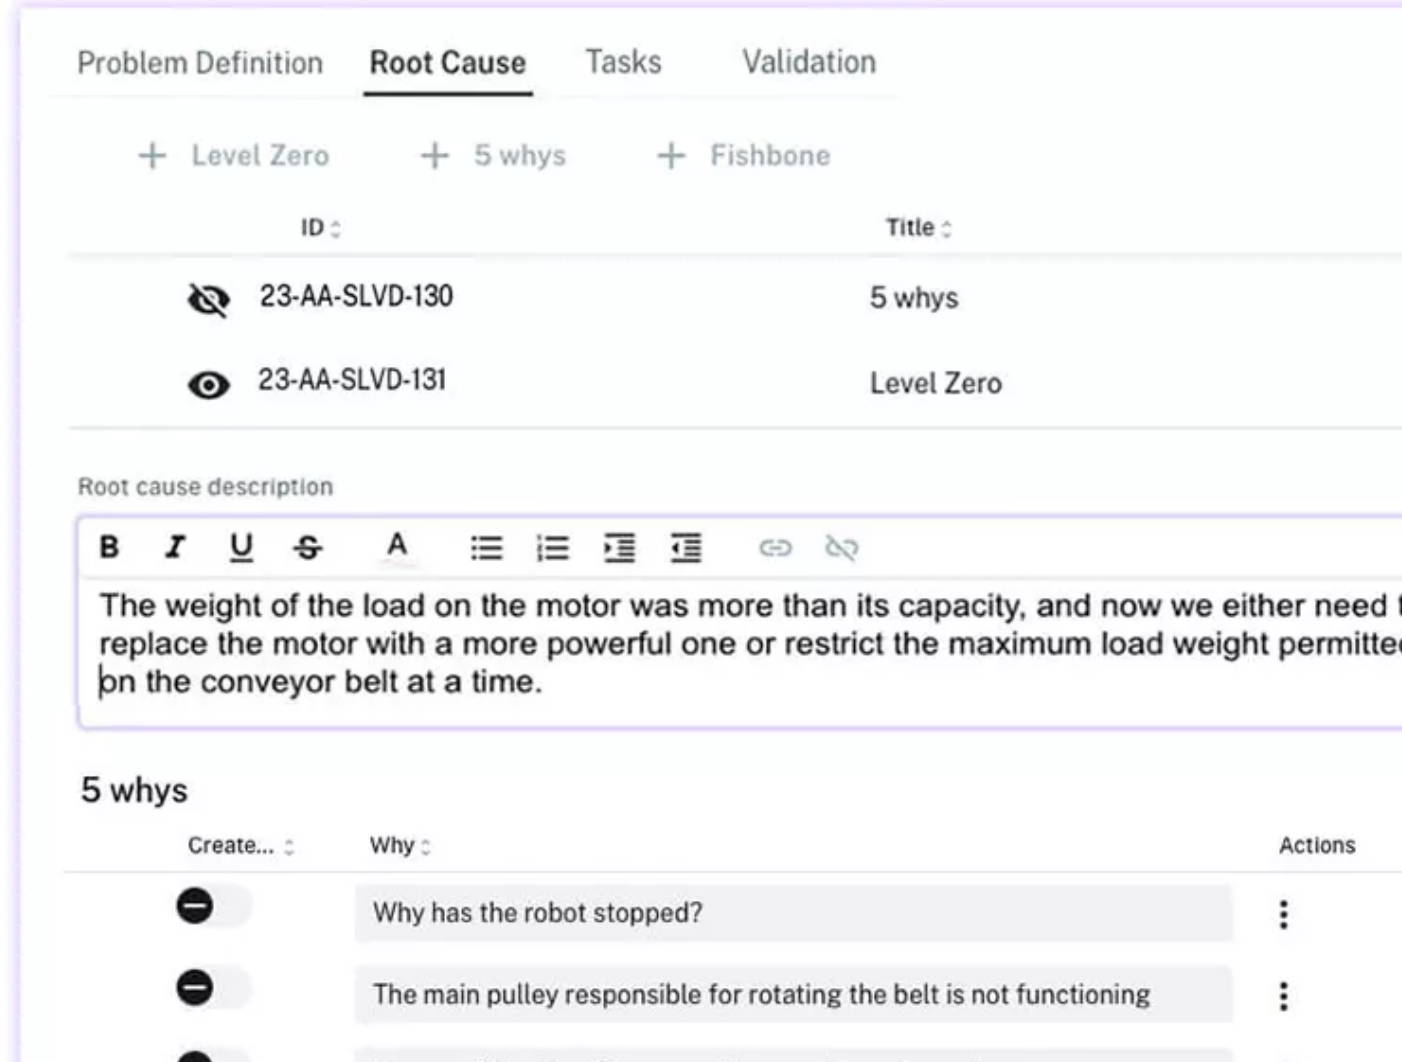

Solvedio offers you a complete overview of current issues. Access all up-to-date information on the solution's status in one place.

- ✓ View a list of issues and filter them by specific criteria, e.g., their status or your role.
- ✓ Set up notifications to keep track of any changes related to your team or issue solution.
- ✓ Escalate slowly resolving issues to speed up their solution.

You can improve the process with innovative methods

Access the most modern problem-solving methods, such as Fishbone, 5xWhy, 5WIH, or 5G. Solvedio intuitively guides you through them step by step and helps you instinctively achieve the best results.

- ✓ Choose from predefined or custom in-house problem-solving approaches.
- ✓ Fill out a questionnaire that automatically generates the tasks needed for the solution based on the answers.

You can automate the process and choose the ideal solution

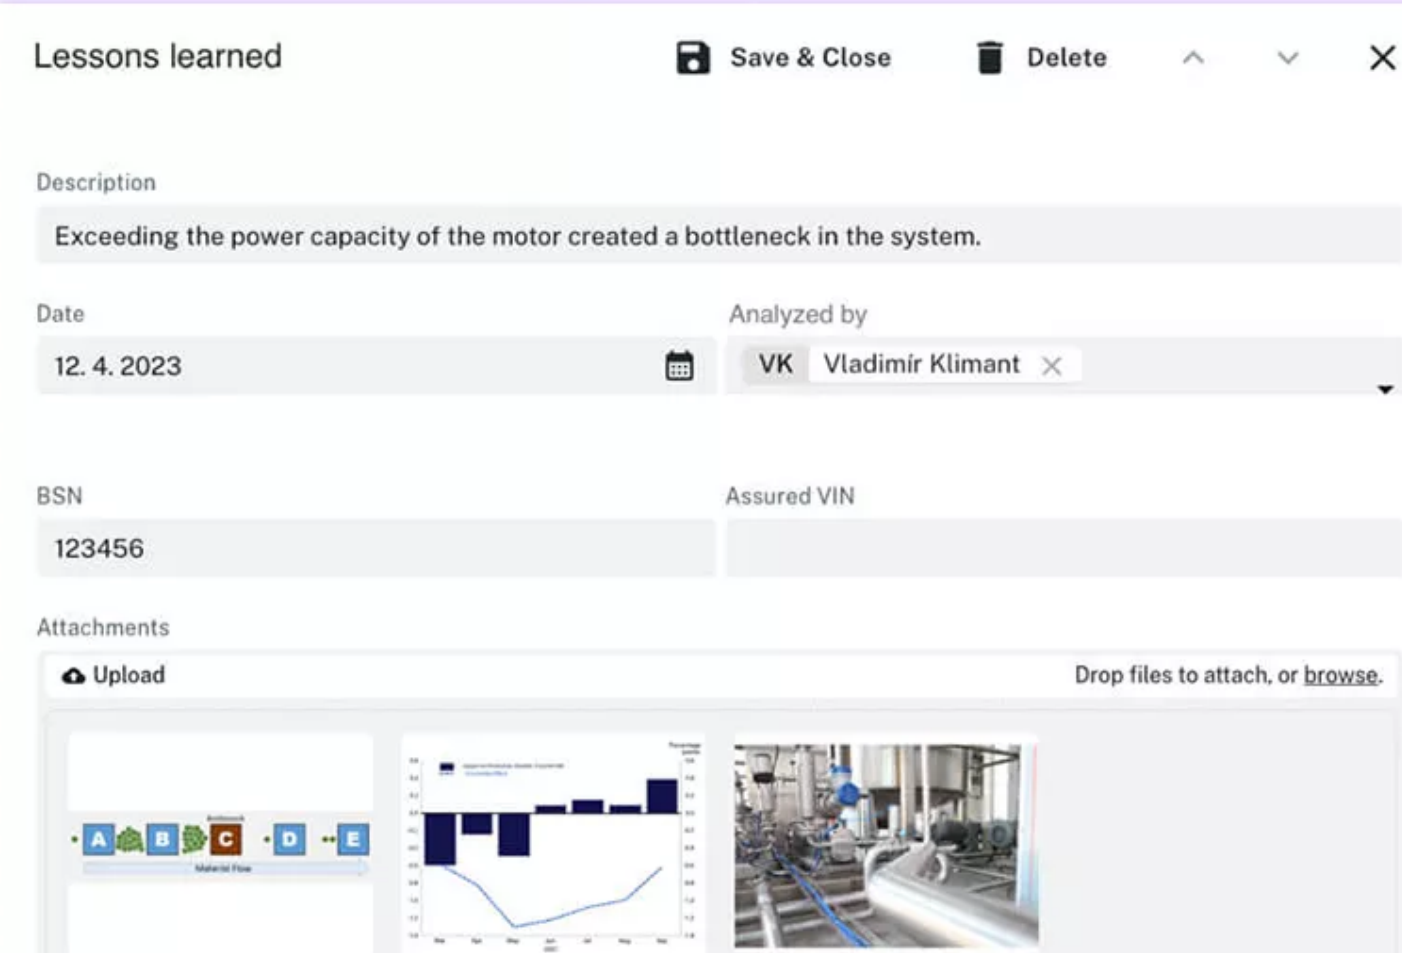

Solvedio allows you to specify corrective measures and assign roles to team members to ensure that all the necessary steps are taken to resolve them.

- ✓ Identify all problematic products and processes and automatically group similar issues.
- ✓ Automatically redirect problematic products and processes for repair.
- ✓ Determine the impact of solutions on the product and process problems that may be affected.

You can prevent problems from recurring and learn the solved issues

Design lasting solutions to prevent problems from recurring. With Solvedio, you can monitor bottlenecks during repair processes and adjust guidelines or manuals based on the identified solutions.

- ✓ Implement various validations to prevent the problem from recurring.
- ✓ Create a knowledge base of previously resolved issues to learn from and prevent reoccurrence.
- ✓ Ensure guidelines and manuals are modified directly in the application based on the solution.

Tailor the Solution to Your Unique Requirements

- 1. Consultation and Analysis**
Our analyst will have a conversation with you to understand your specific business requirements and objectives. We will gather all the necessary information to identify the best solution that fits your needs.
- 2. Tailored Solution Proposal**
Based on the consultation, our experts will create a customized solution proposal that replicates your business requirements. This proposal will outline how the Solvedio solution can be adapted to meet your specific needs and objectives.
- 3. Design and Development**
Once the proposal is approved, our team will proceed with the design and development of the tailored solution. We will work closely with you to ensure that the solution aligns perfectly with your business processes and workflows.
- 4. Solution Delivery and Trial Period**
Within 5 weeks, we will deliver the completed solution to you. You will have an agreed period of time to try out the solution for free. This trial period allows you to assess the solution's suitability and effectiveness in addressing your specific requirements.
- 5. Ongoing Support and Adaptation**
Our collaboration doesn't end with the trial period. Our experts will remain in contact with you, providing ongoing support and ensuring that the solution continuously adapts to your evolving needs. You will have the opportunity to explore and discover new possibilities of the Solvedio platform, making it a valuable asset for your business's success.
