Customer Success Story

Ministerio de Educación
REPÚBLICA DOMINICANA

MINERD's goal is to manage and regulate processes for all education institutions in the Dominican Republic. To deliver greater HR value to collaborators on the institution, we ran a 2 months project on July 2019 to integrate FormeSX to our environment. Together with Solvex Dominicana we were able to make this integration successful and it is been used by over +1000 users. We firmly believe that the solution will keep improving our HR team.

Win Results

Human error and operational overhead was avoided after implementing the solution. Originally all HR requests were managed by a group of HR people at MINERD.

An extra step was achieved by accomplishing the required synergy between Teams, Power Apps, Flow, Power BI and our Azure environment.

With the solution there was improvement in response time, performance, financial cost to maintain the system and customer satisfaction. With this, FormeSX is used by over 1,000 users on the institution.
