Copilot Pre-Flight Check

Preparing for Microsoft 365 Copilot is crucial, therefore this Copilot Pre-Flight Check will give you an overview on the potential of Copilot and its use cases.

Contents of the Workshop

- We will provide you with best practices on how to avoid oversharing sensitive or personal information with Copilot.
- We will review the security, privacy, compliance, and responsible AI aspects of Copilot, and show you how you can configure the admin settings and policies to meet your organization's needs.
- After this Pre-Flight Check all open questions will be answered and everything is prepared for you to take off with Copilot.
