

# Sopra Steria Dynamics 365 Customer Engagement (CE) Health Check

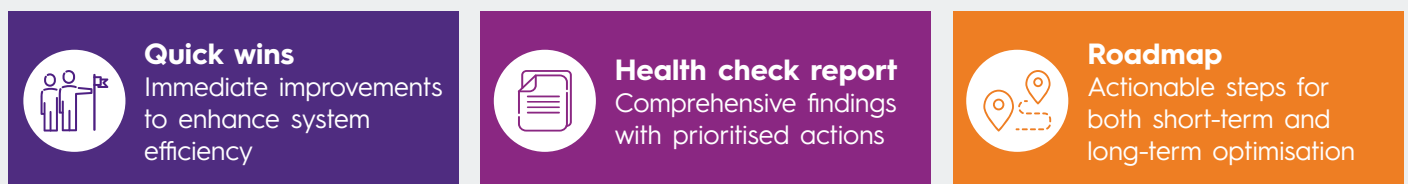

Optimising Dynamics 365 (D365) CE for peak performance and strategic alignment

A Dynamics 365 CE Health Check is a review of your current setup to identify any issues with performance, security, and best practices, ensuring the system is running efficiently and is prepared for future growth.

### Perfect for:

- Teams who are ready to scale but unsure if their Customer Relationship Management (CRM) can keep up
- IT Leaders who want clarity before making big platform decisions
- Businesses that want to maximise Return on Investment (ROI) from D365 Compliance
- Governance teams that need a security sanity check
