FORRESTER

Our cyber entity

PROTECT DEVICES

Convictions & principes

Our added value

- Devices trust enhancement
- Risk Reduction
- MDR capabilities enablement

What: Protect Device product prevents assets connected to enterprise network from being a security threat.

Why: All kind of endpoints can be the entry point of an attack or initiate lateral movements allowing the attacker to complete the killchain.

Mission: Build expertise on endpoint protection technologies and an extent view on their top editors landscape

Value Delivered: Protection adapted to client risk exposure and visibility on protection maturity level

Thématiques / domaines d'intervention

EndPoint Protection Platform

- Mitre Defend matrix coverage
- Antimalware Protection
- Exploit Protection

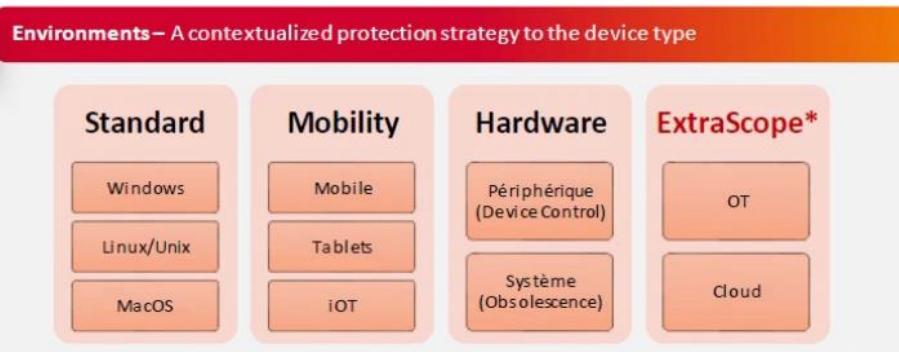

EndPoint Detect & Response

- Mitre Att&ck matrix coverage
- Zero Day protection
- Insider Protection

Mobile Threat Detection

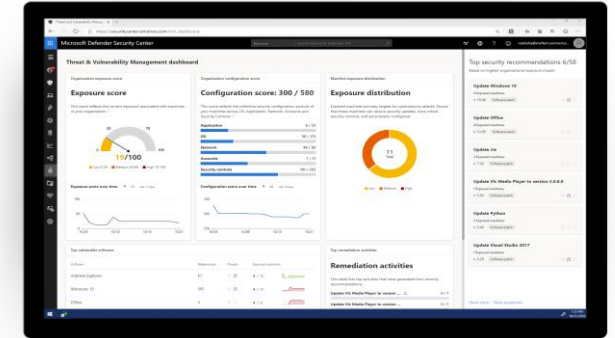

- Mitre Att&ck Mobile matrix coverage
- Risk Remediation
- Hardening

Périmètre de protection
