Wallenius Wilhelmsen sails in the cloud

**"We will be at the forefront
of the wave of disruption.
That's why we're deliberately
using modern technology to
gain business advantage."**

Totto Befring

Head of Infrastructure Services,
Wallenius Wilhelmsen

Wallenius Wilhelmsen sails in the cloud

In order to achieve their digitalisation goals, Wallenius Wilhelmsen has decided that the entire IT portfolio should be cloud-based. This means that the company needs a service provider that can both assist in the transformation process and step into the role of strategic IT partner.

The agreement makes Sopra Steria Wallenius Wilhelmsen's strategic IT partner and service provider. Sopra Steria's most important contribution is the expertise and capacity to support the desired transformation from traditional operations to a modern operating model built on cloud architecture and new technology.

Why Sopra Steria?

- A proactive partner with strong expertise in cloud solutions
- A global partner with an international delivery model led from Norway
- Expertise, capacity and framework for digital transformation

Value for the customer

- Scalability
- Modern, stable and safe services
- Better insights into cloud costs
- Increased innovation rate
- 40% reduced IT operating costs
- Reduced greenhouse gas emissions

Selected solutions

- Microsoft Azure
- ServiceNow
- Microsoft 365
- Citrix Cloud
- Cisco Meraki
- Security Operations Centre

Lånekassen is now in the cloud

"We have for long focused on the use of new technology to manage student support schemes in the best possible way. By being on a cloud platform, we will have even more opportunities for innovation, streamlining and further development of services. This, in turn, will be in the best interest of both customers and employees."

Heidi Brunborg

IT Director, Lånekassen

Lånekassen is now in the cloud

Lånekassen wanted to modernise their IT systems and applications through the use of cloud services. Sopra Steria is Lånekassen's new IT partner and has assisted in establishing and moving the core systems to the Azure public cloud. Sopra Steria is responsible for operating all Lånekassen's IT solutions in the cloud. Sopra Steria also delivers a new client platform and renewed network structure that supports Lånekassen's need for improved internet access.

Why Sopra Steria?

- Modern and innovative partner that delivers stable and secure IT operations
- Experience from modernisation projects
- Strong competence and proven execution ability

Value for the customer

- Increased quality
- Access to innovative solutions and services
- Efficiency, flexibility and scalability
- Improved security
- Reduced costs

Selected solutions

- Microsoft Azure
- Microsoft Intune
- Windows Virtual Desktop
- Microsoft 365
- Cisco Meraki
