Microsoft Dynamics 365 Finance Implementation

An agile success by design implementation

Accelerate your business with Microsoft Dynamics 365 Finance. We can assist you in the implementation and quickly unlock the value and potential in Microsoft Dynamics 365 Finance.

Microsoft Dynamics 365 Finance is a modern and flexible ERP system that helps the world's leading organizations and companies manage and monitor the performance of their financial operations in real time, predict future results and make data-driven decisions to drive growth. Microsoft Dynamics 365 Finance supports global organizations of all sizes in various industries to be agile and transform their markets with new business models. We offer advice, implementation, and life-cycle management of the business system.

Dynamics 365 Finance is a cloud-based enterprise resource planning (ERP) solution offered by Microsoft as part of its Dynamics 365 suite. It provides financial management capabilities, including accounts payable, accounts receivable, general ledger and cash management.

Dynamics 365 Finance integrates with other Dynamics 365 applications, such as Sales and Supply Chain to provide a comprehensive solution for businesses.

Implementation

We offer implementation of Microsoft Dynamics 365 Finance and Supply Chain Management. We do this for companies and organizations throughout the Nordics after you have decided Microsoft Dynamics 365 is a match for you.

We are working in an agile way according to Microsoft Success by Design through the entire cloud journey for your business system. Based on Sopra Steria's knowledge, framework, standardization of business processes and adoption of best practices in implementing Dynamics 365 we reduce cost and delivery time of the ERP implementation compared to most competitors.

Success by design

Success by Design for Dynamics 365 systematically guides implementation through a series of assessments at critical stages to ensure optimal architecture, security, performance, and user experience for a Dynamics 365 solution. The framework is designed around three core principles:

- Early discovery
- Proactive guidance
- Predictable success

What does this implementation include?

Every implementation is unique and adopted for each customer – you will receive Sopra Steria's best practice on how to implement Dynamics 365 Finance in your organization.

Leveraging our industry best practice, accelerated implementation methodology and Microsoft's Catalyst framework, Sopra Steria guides and supports your business in defining of requirements and implementation of the right solution through to supporting you on your onward journey using your new solution to deliver business success.

Pricing & duration may vary based on client scope and individual requirements.
