Discover Right ERP

Workshop and analysis to help choosing the right ERP system to a fixed price!

Accelerate your business with Microsoft Dynamics 365. We can help you decide if Dynamics 365 Business Central or Dynamics 365 Finance is the best fit for your business in multiple dimensions such as business processes, business plans, current systems and so on and quickly unlock the value and potential in Microsoft Dynamics 365.

For some companies and organizations, it is not obvious which D365 ERP system is the best fit. Even for some large companies, D365 Business Central may be sufficient, and some smaller companies may need D365 Finance.

Dynamics 365 Business Central

Microsoft Dynamics 365 Business Central is an ERP solution for small and mid-sized organizations that automates and streamlines business processes and helps you manage your business. Highly adaptable and rich with features, Business Central enables companies to manage their business, including finance, manufacturing, sales, shipping, project management, services, and more.

Dynamics 365 Finance

Microsoft Dynamics 365 Finance is a modern and flexible ERP-system that helps the world's leading organizations and companies manage and monitor the performance of their financial operations in real time, predict future results and make data-driven decisions to drive growth. Microsoft Dynamics 365 Finance supports global organizations of all sizes in various industries to be agile and transform their markets with new business models.
