

Microsoft 365 Copilot preparation workshop

One day of inspiration

Microsoft 365

Microsoft 365 Copilot preparation workshop

Let Sopra Steria guide you through one day workshop designed to prepare your organization for next-generation of work, AI.

Transform your business processes and unlock new opportunities with our Microsoft 365 Copilot offer.

During our 1-day workshop we will perform a high-level assessment to discuss permissions and content, security, privacy, data residency, license management and Copilot adoption.

We will guide you through the process how to successfully implement Microsoft 365 Copilot and the steps for Copilot adoption in your organization.

We will help you to create a high level plan of the preparations needed to successfully implement Microsoft 365 Copilot in your organization. At the end of the day we will have a brief session of inspiration and possibilities with Microsoft 365 Copilot.

Our Microsoft 365 architects and experts have real-world experience in the digital journey using Microsoft 365 and associated tools. With the Microsoft ecosystem and a platform that is literally changing every week, our experts will help you to understand your goals and offer advice on how to best navigate to a successful outcome.

Deliverables:

- Permissions and content management best practices
- Security, privacy, and data residency
- Copilot license management
- How to drive Copilot adoption
- Staying up to date with changes and announcements
- High level plan of required steps to implement Microsoft 365 Copilot

Contact us today to learn more about our Microsoft 365 Copilot workshop offer and start your journey towards digital transformation!
