

Microsoft Purview Security and Compliance Workshop

Protect sensitive data – track, align
and record compliance within your
organization towards GDPR and
other regulations

One week engagement

Microsoft Purview

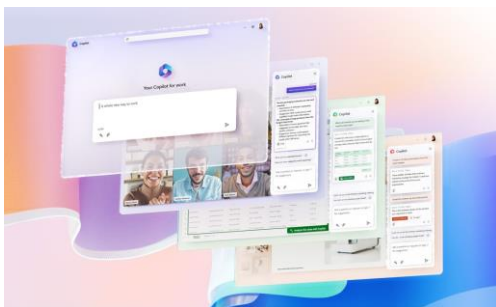

Microsoft Purview workshop and assessment – 1 week engagement

Let Sopra Steria guide you through the journey to become secure and compliant. Microsoft Purview will help you control and know you content.

Microsoft 365 Purview is an intelligent compliance management solution that provides capabilities such as insight, discovery, protection, and automation to increase management towards regulatory requirements.

Is your organization properly governing your Microsoft Ecosystem? Do you have Compliance or Governance requirements to meet? If so, this assessment/workshop perfect for your team. In this engagement, Sopra Steria's senior technical consultants will leverage their years of field experience to work with your team to show your organization the features of Microsoft Purview and to measure regulatory demands like GDPR etc.

Are there features of the Compliance SKU or your Enterprise licensing you have not implemented but would like to ensure you are getting the full value of your investment of Microsoft 365? In this workshop our consultants will review Microsoft Purview Compliance Manager, Governance, Built-in templates, and the Configuration Analyzer for Microsoft Purview.

Microsoft Purview

Microsoft Purview combines the former Azure Purview and Microsoft 365 compliance solutions and services together into a single brand. Together, these solutions help your organization to control and secure your content.

Microsoft Purview includes risk and compliance solutions that support services included in Microsoft 365. These services include Microsoft Teams, SharePoint, OneDrive, Exchange, and others.

Deliverables:

- Workshop to identify requirements and other regulations for your organization
- Analyze of current setup and demands
- Implementation plan and recommendations
- Presentation of findings
- Best practices and recommended Security and Compliance roles
- The workshop is a one-week engagement (spread in time over 3-4 weeks) with several meetings and assessments.
