SoterAI: Turn Safety Into a Strategic Advantage

Transforming Industrial Safety & Compliance with AI-Powered Intelligence

Introducing SoterAI: Achieve Immediate ROI in Safety, Compliance & Operational Performance

SoterAI is redefining how industrial organizations manage risk, compliance, and workforce safety. Built on proprietary AI trained on over 10,000 safety programs and data from OSHA, NFPA, DOT, EPA, FM Data Sheets and more, SoterAI delivers actionable intelligence that reduces risk, increases productivity, and enhances decision-making across every site, shift, and system.

Risk register

ID	Risk Scenario	Category	Likelihood	Severity	Score	Controls	Rec	Assumed Cost	Location

How SoterAI Delivers ROI From Day One

Real-Time Hazard Detection & Risk Prevention
- AI-powered analysis of facility operations, equipment usage, maintenance practices, and workforce behavior
- Identifies compliance gaps and safety hazards with over 99% accuracy
- Reduces workplace injuries, lost time incidents, and claims by proactively addressing high-risk conditions

Automated Compliance & Regulatory Mastery
- Maintains readiness for OSHA, DOT, EPA, NFPA, and your company's internal regulations
- Automates documentation, inspections, audit prep, and regulatory reporting
- Prevents fines and legal exposure with instant policy enforcement and gap detection

Operational Efficiency & Workforce Productivity
- Reduces manual compliance workload by up to 90% through AI-driven documentation and risk assessments
- Accelerates issue resolution, resource allocation, and on-site decision-making
- Minimizes downtime and disruption tied to safety or regulatory issues

Continuous Learning & Adaptive Risk Management
- Learns from every report, image, and inspection to improve performance over time
- Enhances safety strategies with predictive insights and trend forecasting
- Enables proactive interventions before hazards escalate

Centralized Knowledge & 24/7 Field Support
- Provides instant access to global and internal safety policies, procedures, and training content
- Context-aware learning and guidance at the point of need across all devices
- Strengthens consistency in safety and compliance practices, even across complex, distributed operations

Trusted by Global Leaders - Built for the World's Toughest Environments

SoterAI is already driving safety and compliance improvements for leaders in manufacturing, logistics, construction, energy, transportation, pharmaceutical, and mining. Our partners report a 10% annual reduction in risk exposure, 70% faster audit completion, and 3x more compliance issues identified.
