### **Visualisation Dashboards**

Your most important KPIs made available to you real-time in ways that are easy on your eyes.

### **Intelligent insights**

Timely triggers of AI-driven preemptive actions for your team to help business success.

## **WHAT WE DO?**

Over \$5.5 Billion is lost every year in resources, marketing, and management spending of real estate assets due to non-transparency in the data leading to ineffective decision-making across North America.

RealSage brings advanced technology that organizes and leverages data across the rental journey to generate actionable insights and create standard reporting structures for rental managers, helping them improve asset returns.

## **HOW WE HELP?**

- Provide better, holistic reporting, cutting down weekly/monthly reporting loads across teams, and ensuring full transparency.
- Generate insights to inform and suggest actions on trends that impact NOIs and stay in line with company ESG philosophy.
- Answer important questions regarding energy consumption, water usage, waste management, etc.
- Save lost revenues due to decision-making delays and portfolio inefficiencies.
- Engage with management to ensure the portfolio is aware of the data and access efforts for improvement.

# KEY PRODUCT HIGHLIGHTS
