PowerApps – App in a day workshop

Power Apps is Microsoft a low or no-code application builder platform that gives you a way to quickly deliver applications to your end-users.
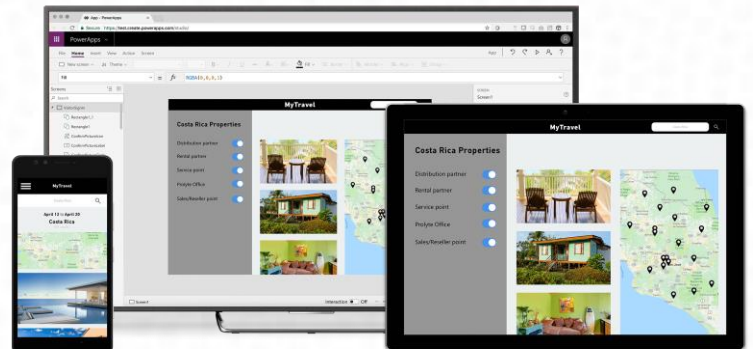

App in a day workshop is designed to help business and IT analysts understand the value of PowerApps. Empower your employees to become app makers so they can implement and digitalize your existing business processes.

This full-day virtual workshop covers basics of Microsoft PowerApps and Power Automate with specific use cases and lab exercises.

At the end of workshop, participants will learn how to build a business solution without writing code using PowerApps and Power Automate.

Workshop's agenda:

- Power Platform fundamentals
- Introduction to PowerApps & Power Automate
- Canvas app & Power Automate hands-on lab
- Introduction to Dataverse
- Dataverse hands-on lab
- Introduction to Model-driven apps
- Model-driven app hands-on lab
