WHY POWER BI PLATFORM?

Unify self-service and enterprise BI

- Reduce cost, complexity, and challenges of multiple analytics systems
- Grow and evolve with a scalable, secure, and compliant platform
- Enterprise BI tools like SSRS and SSAS are inside Power BI
- Protect your data inside and outside of Power BI

AI gets to insights faster

- Make immediate sense of unstructured data like images and text
- Ask questions using natural language or company jargon
- Discover hidden insights and understand what influences KPIs
- Accelerate time to insight with sharable machine learning models

Anyone can access and analyze

- Tell data story with hundreds of data connectors and visual options
- Expedite decisions backed by live dashboards and single source of truth
- Run business in real time and complete ad-hoc analysis from any device
- Put insights where users spend time by embedding dashboards in applications
