# SPARKHOUND CENTER OF EXCELLENCE ACCELERATOR

Set the Foundation for secure and thorough Power Platform adoption

OVERVIEW

Define goals and expected outcomes of your CoE

ADMIN

Gain insights into your Microsoft Power Platform adoption

GOVERN

Establish audit and compliance processes

NURTURE

Accelerate your adoption by thriving with a community of makers

SPARKHOUND CENTER OF EXCELLENCE ACCELERATOR

As a leader in Power Platform service deployment, **the secret to all our successes is helping customers adopt a Center of Excellence (CoE).** The idea behind the CoE is to provide the foundation before building the rest of your house – its purpose is to be an evolving process that drives innovation and improvement for your organization through its Power Platform adoption journey. Low Code/No Code development isn't confined just to IT, and Sparkhound's proven experience brings like-minded people throughout your organization to share successes while we establish a framework for standards, governance, and consistent deployment. **Our accelerator is offered in two different ways: consulting and helping you stand up the CoE, and also adding the Microsoft CoE toolkit which acts as a managed Power Platform.** In just a few weeks Sparkhound will partner with you in building a CoE that will be a fixture of your companies' digital transformation.

SPARKHOUND CENTER OF EXCELLENCE ACCELERATOR

CENTER OF EXCELLENCE LITE

A partner architect will lead sessions to ensure you learn about the COE components, the key concepts of Power Apps and Power Automate governance, and how to deploy and configure the COE Starter Kit and Innovation Backlog Solution. A governance basics session will include different approaches to environment architecture, management, security, DLP. The final session will cover best practices for building an effective COE and the potential for proactive governance and administration.

- Customer understands the key concepts of Power Apps and Power Automate governance
- Customer is ready to operationalize their Center of Excellence

6 Weeks

$20,000

COE LITE + TOOLKIT

All components of CoE lite, with added time and focus on the following:

- Governance environment policy working session
- Leadership and Steering Committee guidance
- DLP administration
- Standards consulting and advisory
- User group facilitation
- Application Lifecycle Management policy, configuration and consulting

8 Weeks

$30,000

POWER BI DASHBOARD – GOVERN (EXAMPLE)

APP LICENSE ASSESSMENT

Page to view apps that use Premium or standard features and drill into connectors, departments, or makers that are using premium connectors

APP & FLOW ARCHIVE

Scored based on modified date, nonproduction words, last modified, template likelihood, Flow State, and complexity

Identify orphaned Desktop flows

DESKTOP FLOW DETAIL

Deep information about Desktop Flows deployed in your Environments

The **SPARK** is the "Aha! moment."
It represents creativity and idea generation.
It's the instant we identify the best solution
to accomplish your goals.

The **HOUND** is how we bring a solution to life.
It speaks to our dedication to your success.
It embodies the unpretentious service, unique
capabilities, and extreme loyalty that define
our partnership.
