Sparkrock helps K12 school districts and boards leverage technology effectively to deliver on their missions of improving the quality of life for people, families and communities.

Sparkrock 365 for K12

Sparkrock 365 is an all-in-one enterprise resource planning (ERP) solution specifically designed for K12 school districts and boards. Delivering an easy user experience to manage finance, accounting, and human resources processes, including procurement, tangible capital assets, expenses, find out what you can achieve with technology purpose-built for your needs.

Sparkrock 365 helps you streamline your processes and reporting to allow your organization to focus on the activities that help students reach the highest level of achievement.

Sparkrock's integrated finance, accounting and HR solutions streamline and automate processes and reporting allowing school districts to serve their stakeholders with less cost and less stress.
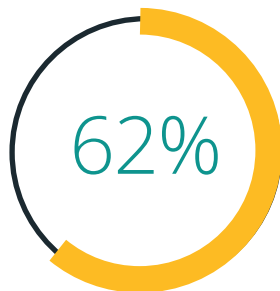

Problem #1. School boards are using multiple solutions, integrations and workarounds to address increasing complexity

Reduce administrative burden, meet compliance reporting requirement, enhance employee productivity & satisfaction, and focus on student achievement.

62% of Canadian school board respondents regard outdated technology as a barrier to achieving results from technology initiatives*. Whether you're in Finance, HR, Payroll, or IT, you face the same formidable challenge.

Problem

How to best manage the growing complexity of K12 operations, while confronting shrinking budgets and growing mandates for stricter accounting and reporting standards.

Client Solution

Native to the cloud, Sparkrock 365 was designed to close the gap between the commercial and public sectors. Get the functionality you need when you need it, instead of relying on complicated workarounds or third-party integrations.

Sparkrock 365 helps you gain control over your finances, make better business decisions, and reduce organizational risk, while simultaneously managing and engaging with your human resources effectively through the mySparkrock portal that supports automated purchasing and procurement, efficient payroll, and rich HR processes.

Problem #2. Lack of access to data mean reporting and data-driven decision making are a constant challenge.

Sparkrock 365 helps you regain visibility of your data thanks to an integrated system and purpose-built reporting tools.

"Serving a large and fast growing community, we struggled with disparate systems, manual processes and siloed departments. Getting access to data was always a challenge and that meant reporting was a huge hurdle. Sparkrock 365 is going to give us the access, efficiency, and reporting functions we need to enable our staff and better support students, teachers, and our wider community."

- Debra McFadden, Executive Officer of HR, Halton District School Board

Problem

Many school districts struggle to manage, view, and react to data in real time, leading to uninformed decision making and reports that take days or weeks to put together.

Client Solution

Bring the power of a single-source of information and the latest reporting tools to your finance and HR teams with Sparkrock 365. The easy of use and Microsoft's familiar and intuitive interface means access to the details you need to make decision is simple. With appropriate security, everyone has access to the information they need - and only the information they need.

Problem #3. End-of-life and outdated technology puts additional pressure on already stressed finance and HR teams.

The last upgrade you'll ever do. With technology built on the Microsoft intelligent cloud, be confident that you are using the best available technology and the latest version.

According to a study conducted by the Aberdeen Group, organizations saw a 22% reduction in operating costs and a 20% reduction in administrative costs after implementing an ERP solution.

Problem

The need to manage, maintain, and upgrade technology outpaces internal IT and change management expertise so K12 school districts are stuck on outdated solutions that cause as many problems as they solve.
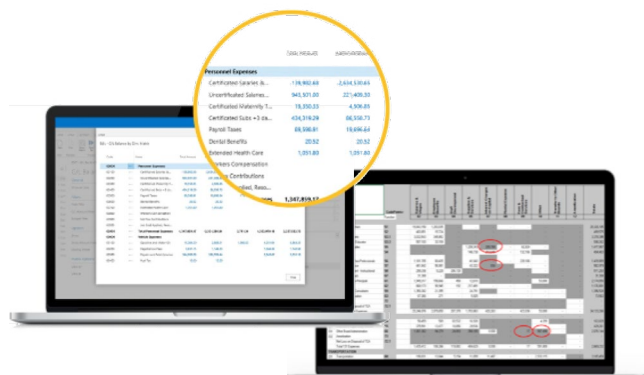

Client Solution

Do more with less and empower your back office teams with technology that is always up to date and aligned with your organizational goals.
