

Supporting Document for Intelligence Suite

Overview Intelligence Suite is a comprehensive, fixed-price analytics and automation platform tailored for businesses seeking transparent, all-inclusive service tiers. Built for predictability and simplicity, this suite eliminates complex usage calculations and enables organizations to scale confidently. Each plan under this framework offers a bundled set of features at a clear flat rate, covering essential analytics, AI capabilities, integration, and support.

Key Features

- Transparent flat-rate pricing per plan
- All-inclusive feature access based on tier
- No usage-based charges or metering
- Scalable for teams of all sizes
- Consistent monthly or annual billing
- Includes baseline support and updates

Getting Started Instructions

1. **Select a Plan:** Review the ten flat-rate plans and select the one that aligns with your business needs.
2. **Subscribe and Activate:** Complete your subscription via the public offer portal.
3. **Access Platform:** Upon activation, login credentials and admin setup instructions will be sent.
4. **Set Up Team Roles:** Configure access levels for team members.
5. **Integrate Data Sources:** Connect business tools, databases, and CRMs for analytics ingestion.
6. **Explore Dashboards:** Start analyzing trends using prebuilt templates and AI tools.
7. **Monitor and Optimize:** Use usage insights and periodic updates to get the most value.

Plans and Descriptions

Plan 1: Starter Tier *Description:* Entry-level plan for small businesses with basic analytics needs. *Features:* Up to 5 users, prebuilt dashboards, standard integrations, email support.

Plan 2: Growth Tier *Description:* Designed for scaling companies that require automation. *Features:* 10 users, AI predictions, automation flows, CRM and cloud connectors.

Plan 3: Professional Tier *Description:* For mid-sized firms needing deeper insights and control. *Features:* 25 users, custom dashboards, report scheduling, Slack integration.

Plan 4: Business Plus Tier *Description:* Offers operational intelligence for multi-departmental teams. *Features:* 50 users, role-based access, workflow builders, single sign-on (SSO).

Plan 5: Advanced Intelligence Tier *Description:* For firms with mature data and AI needs. *Features:* 75 users, NLP-powered search, predictive AI modules, data lake integration.

Plan 6: Enterprise Core Tier *Description:* Flat rate solution for large enterprises with central oversight. *Features:* 100 users, centralized dashboard management, audit logging, priority support.

Plan 7: Innovation Lab Tier *Description:* Perfect for R&D or experimental teams. *Features:* 30 users, unlimited AI sandbox environments, rapid prototyping tools.

Plan 8: Partner Collaboration Tier *Description:* Built for external stakeholder or partner access. *Features:* 50 users, external portals, shared reporting, access governance.

Plan 9: Compliance & Audit Tier *Description:* Tailored for regulated industries. *Features:* 30 users, compliance-ready templates, secure audit trails, encryption features.

Plan 10: Global Scale Tier *Description:* Ultimate plan for multinational organizations. *Features:* Unlimited users, multilingual dashboards, region-based access, 24/7 global support.

Conclusion The FlatRate Intelligence Suite provides a simple, budget-friendly solution for organizations of any size looking to unlock the power of analytics and AI. With no hidden charges, predictable flat pricing, and scalable tiers, it empowers teams to focus on innovation, growth, and insight delivery without the overhead of complex billing.
