Azure Virtual Desktop: 2-Wk Proof of Concept

Spektra Systems is a Microsoft Gold partner providing quality Azure service, In this Proof of concept, Spektra Systems will work with your IT and Business users to set up a desired Azure Virtual Desktop proof of concept environment. Spektra's AVD expertise will assure that you have a best-in-class AVD experience from anywhere and on any device, packaged with Microsoft 365 Security capabilities.

Spektra will work with you to define the schedule, desired experience, test cases, and success criteria before and during the actual POC.

Our typical POC offer include

1.   Define POC Scope, desired experience and success criteria.

2.   Setup Required Azure Infrastructure (in Sandbox or in your own Environment)

3.   Setup AVD Host Pools

4.   Publish up to 8 Applications and assign to POC Users(Up to 25)

5.   Setup M365 Security

6.   User Acceptance testing and Scenario validations

7.   POC Conclusion and Next Steps

Why you should try out Spektra's AVD POC Offer:

1.   Try AVD with assured greater experience.

2.   Let your business users experience AVD before you make the decision.

3.   You will have full control over the POC environment throughout the POC.

4.   Try in a sandbox or in your Azure environment.

5.   Zero Services Cost (Azure Cost as applicable)

6.   Predictable delivery schedule along with quality consulting & guidance.
