Data Courage

AI Vendor Intelligence App

Instruction brochure & usage
scenario

sales@datacourage.com

AI Vendor Intelligence is an innovative Business Central extension that uses AI to provide instant, concise summaries of any available information about your vendors - all within a single, easy-to-digest view. By analyzing data from various sources, AI Vendor Intelligence quickly highlights key insights such as vendor performance, financial stability, historical transactions, and more, giving you a powerful, data-driven foundation for informed decision-making.

This solution is especially beneficial for procurement and purchasing teams, finance managers, and supply chain professionals who rely on accurate vendor information to maintain smooth operations. Rather than juggling multiple sources or platforms, users can simply select a vendor in Business Central and receive an on-the-spot, AI-powered overview, saving time and reducing the risk of oversight.

Ultimately, AI Vendor Intelligence tackles the common challenge of sorting through disparate data and lengthy reports. By consolidating relevant information into an actionable summary, this extension eliminates labor-intensive manual research, minimizes errors, and frees up valuable time for strategic tasks. With AI Vendor Intelligence, you gain a comprehensive, real-time understanding of your vendors, enabling you to make faster, smarter decisions with confidence.

Getting Started

Before using the application for the first time, it is necessary to assign user rights to selected users. This can be done by the local administrator using the standard Business Central functionality, page "Users". The ID of the permission set delivered with the solution is "DATACOURAGE VI DCG".

Generating a Vendor Info

In order to generate a Vendor Info for a particular vendor registered in the Vendor List of Business Central, the user should open the "Vendor List" page. Then select the vendor from the list and go to "Vendors" -> "Vendor" -> "Vendor Company Information" -> "Vendor Company Information". The generation of the supplier information for the selected supplier will start.

After the few minutes required to gather and evaluate information, the supplier information summary will be disabled for review and further use.

General Information

██████████ founded in 1999 by Erik ██████████ and Peter ██████████, is a retail company specializing in sneakers, clothing, and accessories. It is headquartered in Stockholm, Sweden, and operates both online and through physical stores in major cities such as Stockholm, Berlin, Paris, London, New York, and Los Angeles. The company is recognized for its curated selection of limited edition sneakers and streetwear fashion.

Products and Services

- Sneakersstuff offers a wide range of products, including sneakers from leading brands like Nike, adidas, Converse, and New Balance, as well as its own SNS label.
- The company is known for its collaborations with major brands, enhancing its market presence and offering exclusive releases.
- SNS has a significant online presence, providing customers with access to exclusive releases and early drops through a dedicated app.

Financial Stability and Business Health

██████████ is currently facing significant financial challenges. The company has filed for bankruptcy, with a reported loss of 380 million SEK. Revenue decreased by over 10% in 2023, shifting from a profit of 7.5 million SEK to a loss of 30.6 million SEK. The financial instability has led to store closures in Japan and the USA, as well as staff reductions.

Reputation and Reliability

- The company has a mixed reputation, with a Trustpilot score of 3.5 out of 5 based on 3,475 reviews. Customer service issues, particularly regarding returns and exchanges, have been highlighted.
- ██████████ is known for its commitment to selling authentic products directly from brands, which is a positive aspect of their business model.
- Despite financial challenges, the company has a strong history of successful partnerships and collaborations, which could provide opportunities for future growth.

If an Vendor Information report has been already created system will display a query if User like to review already prepared information instead to create new one.

Would You like to check existing Company Information created at 02/20/25 03:03 PM?

Click "No" if You want to generate an up to date Vendor information. In newly appeared window – click "Yes"

Alternatively, the Vendor Information is available from “Vendor Card” of given Vendor with the same functionality.
