

## Microsoft 365

Microsoft 365 is the best-in-class productivity solution that gives you up-to-date apps and services that will help your employees get more done and work better together.

## Run and grow your business

Be more productive from virtually anywhere with mobile and web-based applications together with cloud-based collaboration services such as business-class email, web conferencing, and online file storage.

### Get the apps you need

Get the Office apps (Word, Excel, Outlook, PowerPoint, and OneNote) and access files from anywhere with secure online storage.

### Stay connected

Use business-class email and scheduling through an Outlook experience you can access from your desktop computer or mobile device.

### Meet online

Host secure high-quality audio, video and web meetings with features such as screen sharing, collaborative note taking, and recording and transcription for easy sharing and replay.

### Collaborate easily

Enable real time teamwork with co-workers, customers, and partners using Microsoft Teams for easy file sharing, group chat, and online meetings all in one place, from anywhere across desktop, web, and mobile.

### Safeguard your data

Help protect your business from cybercriminals with Advanced Threat Protection, access and policy controls, AI-powered malware scanning, ransomware protection, and other integrated security features.

### Manage and secure your devices and apps

Gain greater visibility and control over devices, apps, and access via a centralized management console, including the ability to remotely wipe/lock lost or stolen devices to prevent data theft.
