Azure Virtual Desktop Jumpstart:
4-Week Implementation

Azure Virtual Desktop Jumpstart

- Objectives
  - Design and deploy and initial landing zone for Azure Virtual Desktop
  - Design and deploy an initial use case for Azure Virtual Desktop

- Approach
  - Understand current usage of VDI platforms and use cases
  - Ensure the base foundation of what is needed within a landing zone to ensure core Cloud Adoption Framework principals are in place
  - Deploy initial use case for Azure Virtual Desktop usage with customized image and integration into existing environment

- Timeframe
  - 4-Week / $40k implementation
