

Damaged Packaging Application Jumpstart Implementation

Track, report, and manage damaged packages in an efficient and collaborative manner

The Problem

Retail store workers often find issues with damaged packaging in inventory shipments. They need to report the damaged package up through management so that inventory can be adjusted, and other stores can be alerted of the potential that similar packages from the same manufacturer may need to be checked as well.

The Solution

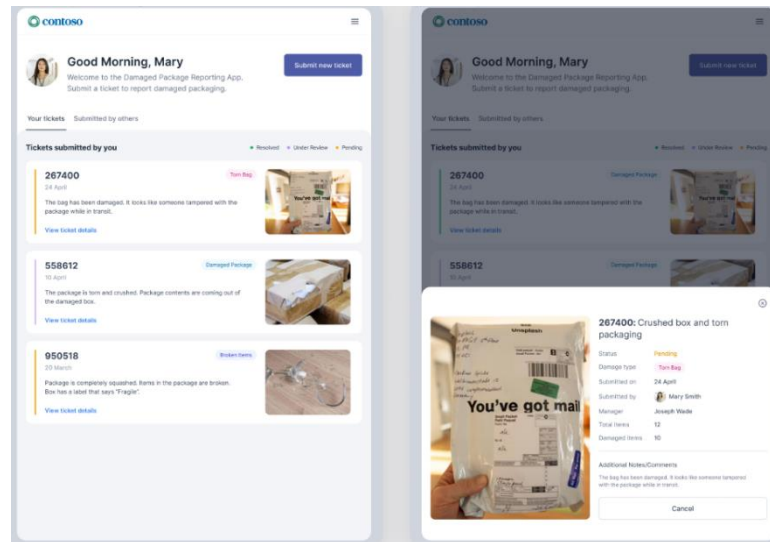

Spyglass's Damaged Packaging Application Jumpstart is a 5-week/\$25,000 implementation that allows the use of Power Apps to capture data of the damaged package via a mobile device. By using Teams and the Yammer Communities app on a mobile phone or tablet device, store employees can easily document any damages they come across. The app allows the employee to create a ticket with the damage that gets routed to a corporate employee for further investigation. The retail employee is also able to track the status of the ticket from their mobile phone or tablet device for clear transparency and understanding.

Agenda

- Week 1
 - Requirements & Design
- Week 2 & 3
 - Development
- Week 4 & 5
 - Testing & Deployment

Deliverables

- Fully deployed mobile driven Power App solution
 - Leverages Power Automate, Power BI, Viva Connection, and Teams Adaptive cards

Spyglass MTG Can Help!

We can help your retail employees track, report, and manage damaged packages in an efficient way. [Contact us today!](#)

About Spyglass MTG- A Women Owned/Women Led Company

For over 15 years, we've closely partnered with Microsoft to bring their vast and expanding suite of enterprise solutions to our clients. We leverage proven methodologies, migration tools and expert consultants to architect, build, deploy, migrate to, and manage Microsoft solutions. Whether you are deploying or upgrading M365, implementing Azure, deploying Teams, building a SharePoint Site, developing a Security or Governance Model, designing a Modern Warehouse or BI Solution, or developing AI apps on the Power Platform, we can help!
