SPYGLASS MTG

Streamlined Security for Multi-Cloud Environments
Simplify multi-cloud security with Microsoft Defender for Cloud

The Challenge
Managing security across multiple cloud environments can be complex and time-consuming. Organizations often struggle with the lack of centralized visibility, inconsistent security policies, and the need to navigate different cloud provider interfaces. This leads to potential security gaps and increased operational overhead.

The Solution
The Spyglass MTG Multi-Cloud Microsoft Defender for Cloud 4-week offering provides a unified and streamlined approach to setting up and managing Microsoft Defender for Cloud across a multi-cloud environment. It enables organizations to centrally monitor, configure, and protect their cloud workloads, ensuring consistent security policies and reducing the complexity of managing security across multiple cloud providers.

- **Multi-cloud Support**: Seamlessly integrate with Azure, AWS, Google Cloud, and other major cloud providers to manage Microsoft Defender for Cloud across diverse environments.
- **Centralized Management**: Gain a single pane of glass view to configure, monitor, and manage security policies across all supported cloud platforms.
- **Automated Deployment and Configuration**: Simplify the setup process with automated deployment and configuration of Microsoft Defender for Cloud, ensuring consistent security across all cloud workloads.
- **Real-time Threat Monitoring**: Receive real-time alerts and notifications for security events, enabling rapid response to potential threats.
- **Compliance Reporting**: Generate comprehensive compliance reports to demonstrate adherence to industry regulations and standards.

Core Components
- Onboarding Azure, AWS, GCP, Azure DevOps, GitHub cloud environments
- Configure security policy across environments
- SOC knowledge transfer and process integration
- Initial automation of routine processes

Agenda
- Week 1: Analysis & Inventory
- Weeks 2: Design & Deployment
- Weeks 2-4: Onboarding & Integration
- Week 4: Response
