

Fabric Solution in 45 Days (FAi45) with LOOM

Create a Microsoft Fabric data and analytics solution quickly and efficiently!

The Challenge

The most common challenge in enterprise data estates is that companies evolved to a ton of data and infrastructure redundancy. There are often multiple teams operating silos of data and the platforms required are inherently very technical and fragmented. *Stitching* together the unique analytics tools is complicated. Microsoft Fabric solves these problems, however, that doesn't mean you know where to start!!!

The Solution

Spyglass' Fabric Solution in 45 Days (FAi45) with **LOOM** (Large-Scale Optimized **O**rchestration **M**odel) is a fast-track service for creating a Fabric Solution in the Microsoft Cloud. Using Fabric LOOM, our solution speeds up data pipeline management with a user-friendly interface, drag-and-drop features, and a variety of connectors and templates. Our approach establishes a strong framework for cloud-scale analytics, ensuring quick and seamless data integration. With prebuilt templates, adoption guidance, governance standards, and development best practices, your solution will be operational in no time!

With our offer, your business will be able to:

- Simplify the ingestion of data sources to support analytics
- Quickly integrate intelligent apps with ML/AI capabilities into Fabric
- Understand Microsoft Fabric, its capabilities, and best practices
- Realize the benefits of a lakehouse and warehouse on Fabric
- Establish an MVP governance and adoption framework
- Envision cloud analytics at scale and throughout the enterprise

The FAi45 Approach

- *Strategy & Plan*
 - Governance, analytics, and architecture workshops
- *Ready & Govern*
 - Implement Fabric governance & security
- *Design & Innovate*
 - Model the data and sketch out the app or report screens
- *Transition*
 - Get your solution into the hands of users, get feedback, and decide what to change or add

FAi45 Benefits

Governance

Time to Market

Flexibility

Repeatability

Spyglass MTG Can Help!
