

# Spyglass Microsoft 365 E5 Migration Implementation

Unleash the full potential of Microsoft 365 E5

## The Challenge

Numerous clients encounter the difficulty of effectively transitioning to the extensive range of Microsoft 365 E5 products. The process of integrating multiple solutions for productivity, security, governance, communication, and reporting can be time-consuming and challenging for many companies to undertake.

## The Solution

The Spyglass Microsoft 365 E5 migration offer focuses on providing a way for customers to quickly take advantage of the full suite of products across their environments.

Each migration phase corresponds to working to increase the level of automation, business value, and security for the environment. Each phase is outlined in more detail below:

## Four Migration Phases

- Assessment and Review
- Planning and Design
- Pilot and Deployment
- Automation

## Deliverables

- Roadmaps
- Recommendations
- Documented Configurations

- **Assessment and Review:** Assess and evaluate the existing configurations and solutions in the organization while helping to identify the specific business use cases and security and compliance requirements
- **Planning and Design:** Plan critical elements such as Change Management, Training, Adoption, and Communication, while documenting Security, Compliance, and Business Use Case requirements
- **Implementation:** Testing and implementing design decisions, including tenant hardening and deploying solutions like Purview, Entra, Defender, Intune, Insider Risk Management, and Copilot for Microsoft 365
- **Automate phase:** Emphasize automating task management and customizing employee experience with Teams, Viva, and the Power Platform suite, including extending Copilot for Microsoft 365 through Copilot Studio

Additionally, Spyglass 365 can provide Endpoint Device Management Tasks. These are ongoing services that provides weekly and monthly proactive device management tasks, such as reviewing reports, adding/updating applications, reviewing and fine-tuning policies, and creating new policies as necessary.
