SPYGLASS MTG

The Problem

Many organizations have started their data governance journey by developing individual solutions that cater to specific requirements of isolated groups and data domains across the organization.

Most organizations find it difficult to maintain consistent controls and policies for these types of solutions and never realize the potential benefits.

SPYGLASS MTG

The Solution

Spyglass's **Microsoft Purview M365 offering is a 4-week/$45,000 Minimum Viable Product (MVP) implementation** of Microsoft 365 (M365) components of Purview to provide a jumpstart to your data governance foundation across your enterprise data assets.

Our Implementation:

- Focuses on establishing the foundational components for data governance within the M365 environment to help secure, monitor, and take actions on corporate data.

- Maximizes the business value of your data

- Increases collaboration

- Protects data

- Decreases time to discover data

- Reduces time-to-market

- Reduces operational risks
