

Security Posturing

Square10 delivers a comprehensive Microsoft 365 Security Posturing engagement, focused on strengthening access control and Mobile Device Management (MDM) for your organization.

Key Features

- Robust access controls for Microsoft 365 tenant management
- Integration of Microsoft Intune for compliance checks on iOS, Android, and trusted Windows devices
- Limited access from unmanaged devices to protect sensitive data
- Configuration and deployment of application management (MAM) policies for secure mobile app usage
- Guidance on Conditional Access policies and Azure Multi-Factor Authentication (MFA)
- Knowledge transfer and support for IT teams on device enrollment and management
- Project management and support throughout user testing and pilot phases

Leveraging Microsoft Intune and industry best practices, our team ensures secure access to your Microsoft 365 environment, seamless device management, and a phased approach tailored to your needs—all while providing expert guidance every step of the way.

Our Approach:

1. **Review** and adjust Microsoft 365 security settings (user portal, app registration, sharing policies)
2. **Configure** Microsoft Intune for Mobile Device Management (MDM) and connect to Apple/Google for device management
3. **Assess** device and application management capabilities and define implementation steps
4. **Configure** compliance and configuration policies for MacOS, iOS, and Android devices
5. **Set up** application management (MAM) policies and deploy up to 15 applications per platform
6. **Advise** on standardizing Outlook mobile and Microsoft app suite; assist with testing
7. **Test and validate** Intune configuration with representative devices

Next Steps: If you are interested in moving forward with a meeting to define project objectives, scope and pricing, please [Contact Us](#) and a member of our team will contact you within 24 hours to schedule.

Security Posturing

Square10 delivers a comprehensive Microsoft 365 Security Posturing engagement, focused on strengthening access control and Mobile Device Management (MDM) for your organization.

Why Square10?

- Square10 offers expert guidance and customized plans to meet your business goals. We provide impartial risk evaluation and mitigation strategies for IT decisions, ensuring informed choices for platforms, upgrades, or integrations. Our Professional Services enhance your organization's IT experiences, reduce risks, and optimize operations. We are your committed partner for ongoing business success.

Our Deliverables

During the engagement as we reach specific project milestones, we will provide you with the following:

- Updated and documented Conditional Access policies
- Configured Azure Multi-Factor Authentication (MFA) for secure access
- Guidance and support for IT on device registration and enrollment (including Microsoft Authenticator and Intune)
- Knowledge transfer sessions for ongoing Intune management and application deployment
- Support during user testing, pilot, and implementation (with capped support hours)
- Comprehensive project management throughout the engagement

Benefits

Specialized Microsoft 365 Security Expertise

- Our team brings deep Microsoft 365 security expertise and focuses on access control, Conditional Access, and Mobile Device Management (MDM) with Microsoft Intune to deliver compliant, industry aligned solutions.

Advisory Driven, Customer Centric Engagement

- We go beyond technical deployment by partnering with your team to clarify priorities, tailor solutions, and provide ongoing support and knowledge transfer to ensure long term success in your unique environment.

Transparent, Fixed Fee Model with Defined Deliverables

- We provide clear, fixed cost proposals with capped support hours and defined deliverables, offering transparency and measurable value that sets us apart from time and materials competitors.
