

Simplify UC Management

ZIRO Platform for Microsoft Teams Phone

ZIRO simplifies Microsoft Teams phone provisioning.

Automate user onboarding, offboarding, and management tasks. Our intuitive platform empowers your helpdesk to handle phone system administration efficiently, saving you time and money.

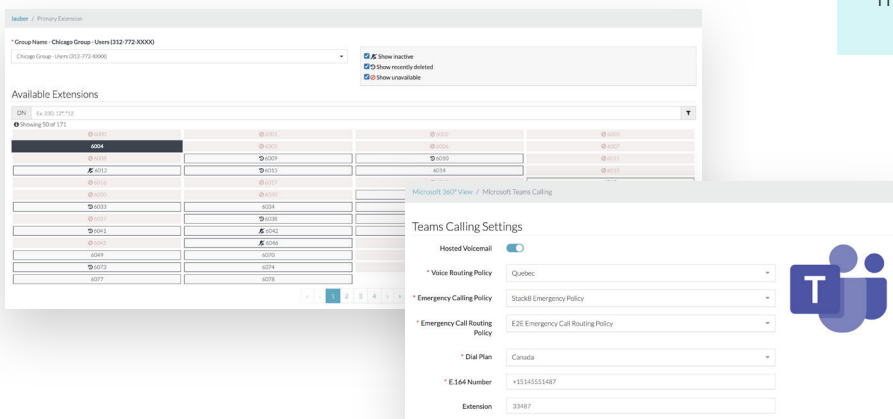

Say goodbye to spreadsheets, PowerShell, complex templates, and manual errors.

Simplify Daily UC Management

Onboarding and offboarding is easy with ZIRO. You can manage all the MACDs and DIDs for your entire workforce with a simple click of the mouse.

Automate Provisioning

With ZIRO workflow automation you can setup provisioning and device modifications without ever needing manual intervention.

Teams Phone Provisioning

Simplify Daily Management of Microsoft Teams Phone

ZIRO's Platform for Microsoft (ZPM) simplifies complex Teams Phone administration, empowering your helpdesk to manage Teams Phone provisioning and licensing more efficiently.

KEY BENEFITS

- **Centralized management:** View and manage all Teams services from a single dashboard.
- **Standardization:** Create and manage UC policy standards across the entire organization.
- **Automate provisioning:** Provision users as they are hired, move, or leave the company with zero-touch triggered by changes to Active Directory or integrated ITSM actions.
- **Simplified dial plan management:** Get a clear view of available and utilized DIDs and efficiently manage and assign numbers without spreadsheets, PowerShell, or templates.
- **Helpdesk Enablement:** Manage MACDs using your IT helpdesk personnel and ticketing system, freeing up your UC experts for more strategic challenges.
- **Robust compliance features:** Ensure security and compliance with audit trails and enhanced recording.
- **Seamless integration:** Integrate UC management with your IT infrastructure through our RESTful APIs.
- **Easy troubleshooting:** Quickly identify potential issues or misconfigurations and correct them instantly.

KEY FEATURES

- Interactive 360-degree user view
- License management
- Role-based access control
- Enhanced search functionality
- Dial plan management
- Automated DID porting (with ZIRO direct routing)
- Compliance recording
- On-premises Active Directory sync
- Unified dial plan management (Cisco & Microsoft)
- RESTful APIs
- Audit trails
- Automated workflows

Simplify your Teams Phone environment and boost productivity with ZIRO.
