## ARE YOU LOOKING TO MIGRATE TO AZURE?

Perhaps your internal IT department doesn't have the capacity for the design, planning and change-over, not to mention the ongoing management once you've made the move?

Or perhaps you don't have the internal expertise to oversee the detailed documentation required to support the process?

Maybe you're concerned about the knock-on effects of such a major data migration on day-to-day business operations?

SCG can help define & deliver the ideal solution to meet your business requirements. We could even do it for free!
