

Staffbase Intranet

Always
includes
a branded
mobile app

Empower your workforce with an experience that inspires

Inspire and engage employees with Staffbase Intranet, the digital surround-sound experience for your communications and brand. Reach all employees with corporate content, provide access to information and services, foster authentic community, and drive shared understanding of company vision and values.

Half of companies
do not believe they
have an effective
intranet

The #1 challenge
of intranets today
is that they don't
reach all employees

Great Clips

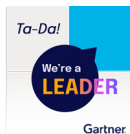

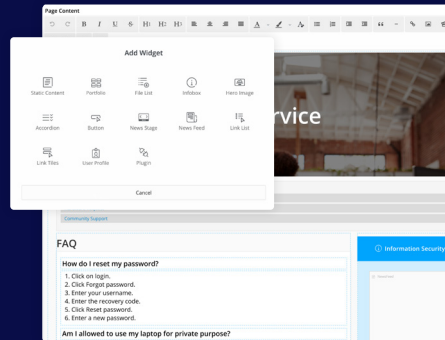

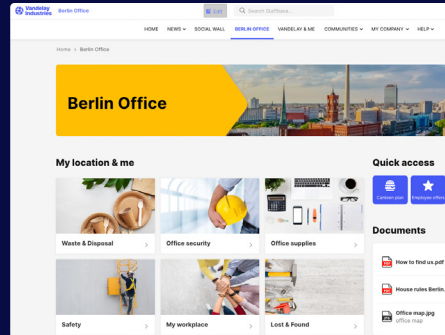

Walgreens

News and info the way people want it

- Extensive targeting to tailor the audience experience
- Personalized content, menu structures, and quick links
- Application launchpad based on employees' most frequently used tools
- Available on multiple devices and in multiple languages

Easy to manage without tech expertise

- Choose from best practice layouts and templates
- Create pages that reduce clutter, without code
- Keep content relevant with automatic update reminders
- Target menu structures and page elements to different audiences
