Virtual Lab Platform for
Universities & Colleges

Self-Paced Labs Designed for Effective Upskilling and Reskilling

160+ Virtual Labs
From Top Categories

AI/ML	IoT	Devops	Big Data	IBM PaaS Services	Information Security	Cloud Computing	Database System

Virtual Labs Supports Multi Cloud
(IBM / Microsoft / GCP / AWS)

Our virtual labs provide a real-time environment where students can gain practical insights into advanced cloud technologies, Hands-on with real-world scenarios and develop essential skills that align with industry demands.

Power-packed Features

✓ Virtual Labs	✓ Project & Tasks	✓ IBM Digital Badges	✓ Digibot-Chat GPT
✓ AI Interview	✓ Online Class	✓ Hackathon	✓ Polls & Survey
✓ Auto Assessment	✓ Live Proctored Exam	✓ Chat Room	✓ Digital Library
✓ Parent View	✓ Build My Career	✓ Online Portfolio	✓ & More

Expertise Training In

Gen AI	Devops	Data Science	Blockchain	Cloud Computing

Cyber Security	Big Data & Analytics	Full Stack Development	Information Security

Benefits for Universities & Colleges

- ◉ Access to Advanced Technology
- ◉ Flexible Learning
- ◉ Scalability

- ◉ Integration with Curriculum
- ◉ Project- Based Learning
- ◉ More

- ◉ Remote Learning Support
- ◉ Integrated with LMS

Key Features

Hands-on Practice

Students can engage in practical exercises, ranging from basic
to advance cloud technologies, within a dedicated virtual environment.

Flexible Learning

Our platform accommodates diverse learning styles, allowing students
to access lab at their convenience and pace, promoting a self-directed approach

Real-World Scenarios
Labs are designed to replicate real-world situations aligned with there curriculum.
