Steepmeadow Solutions

Copilot for Microsoft 365
Adoption & Change Management

Your employees are your greatest resource, yet they may present the largest hurdle in embracing new solutions. Technology alone doesn't solve problems.

Steepmeadow's Copilot Change Management provides you a strategy to prepare, empower, and motivate your team to adopt Copilot for Microsoft 365.

Our Copilot Change Management service:

➢ **Art of the Possible**: A Day in the Work Life with Copilot plus demos for extending Copilot

➢ Understanding your organization's **adoption** of the Microsoft 365 suite of apps, other business-critical applications, and a user **survey**

➢ Defining **goals** and **objectives** and identifying **opportunities** for Copilot

➢ Identifying key **stakeholders**, **influencers**, **champions**, and **outliers**

Our experienced staff will use this information to create an **action plan** for **training**, **communication**, and **adoption** of Copilot for Microsoft 365.

Steepmeadow is a Microsoft Modern Work partner with an Advanced Specialization in Adoption and Change Management

Steepmeadow Solutions can also deliver training and help your organization prepare for Copilot. Contact us to learn more and get started!
