Silver Windows and Devices
Silver Security

Solution Overview

Manage access

Users with excessive access are vulnerable in the event of account compromise. Ensure your organization manages to least privilege by periodically reviewing, renewing, or extending access to resources.

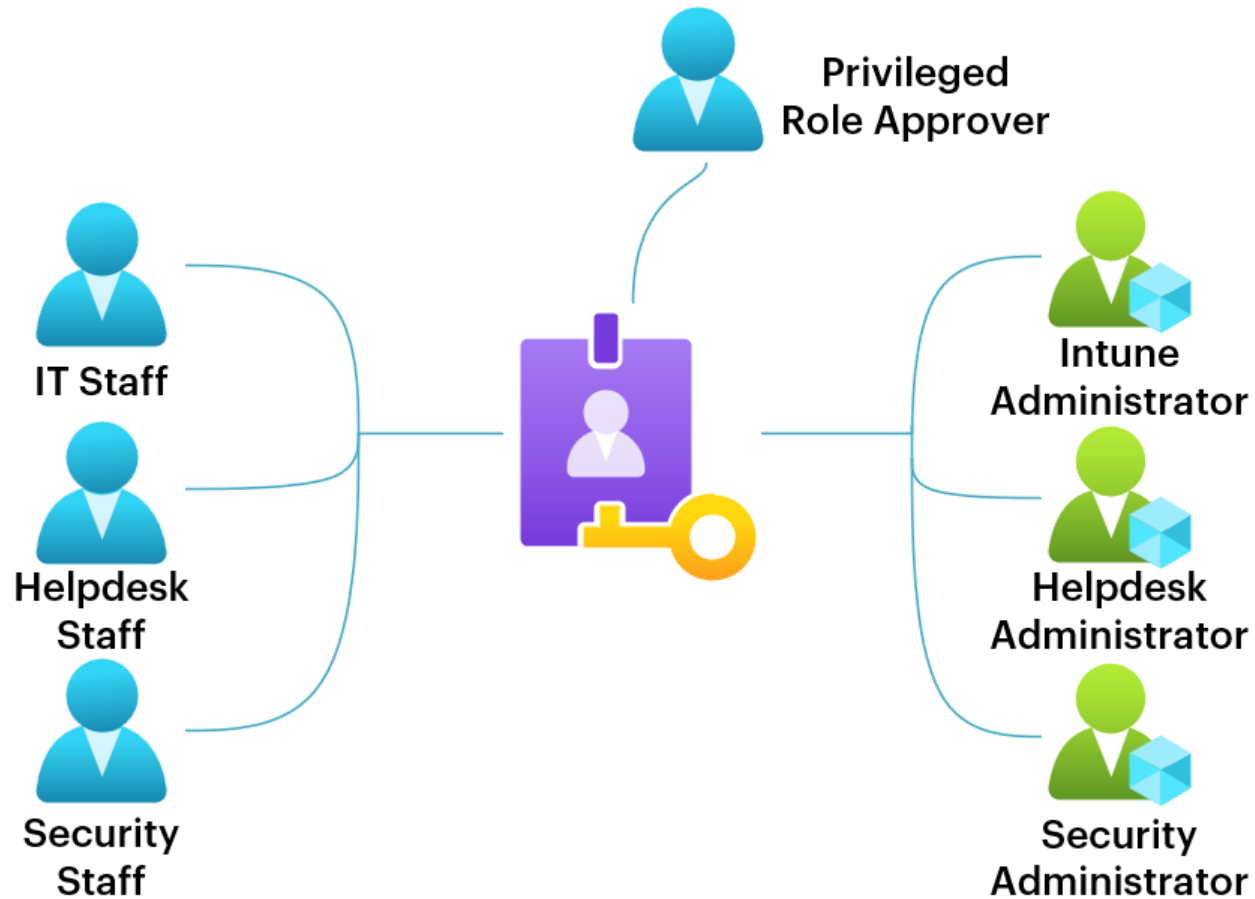

Activate just in time

Reduce the potential for lateral movement in the event of account compromise by eliminating persistent access to privileged roles and resources. Enforce just in time access to critical roles with PIM.

Discover and monitor

It is common for access to critical resources to go undetected. Ensure you know who has access to what, and receive notifications when new assignments are granted to accounts in your organization.

Typical Azure PIM Implementation

Partner Credentials

FastTrack Ready Partner (FRP)

Steeves and Associates is part of the inaugural 100 Microsoft FastTrack Ready partners. FRPs can deliver the FastTrack benefit on behalf of Microsoft.

Advanced Specialization – Adoption and Change Management

Demonstrated ability to consistently drive the lifetime value of the adoption of Microsoft 365 workloads.

1st Canadian Cloud Partner

Microsoft Partner since 1993 and the first Canadian Cloud Partner driving migrations from your current state to the Cloud. We deliver projects in both Microsoft 365 and Azure.
