

The AI Engagement Platform for Automotive

STELLA™ Reception

Never Miss Another Call or Opportunity

Replace outdated IVR systems with STELLA's advanced AI, answering every call on the first ring, 24/7, delivers a dealer-branded, intelligent experience. STELLA Reception engages naturally like Siri or Alexa, with personalized greetings that maintain your dealership's brand image with every interaction.

STELLA Reception's conversational AI efficiently routes calls based on name, department, role, or topic, connecting customers to the right person immediately. Experience precise and professional call handling with STELLA Reception—where every interaction is handled with speed and intelligence.
